### Hundred Ships to Start for West Coast as Soon as Fueled

BY WARREN B. FRANCIS  
Times Staff Correspondent

WASHINGTON, April 15. Immediate return of the United States Fleet to Pacific ports was ordered today by President Roosevelt on the strength of alarming new reports from Europe and the Orient.

Plans to keep the bulk of the nation's fighting force in Atlantic waters until midsummer were scrapped suddenly following secret conferences of highest-ranking naval officers and the receipt of warnings that trouble may occur in the Pacific in the near future.

### REVIEW CANCELED

The Navy Department, without previous warning, canceled a special review for Secretary Swanson and members of Congress, as well as the long-scheduled visit to the New York World's Fair, and directed 64 vessels—the backbone of the fleet—to start for home bases as rapidly as possible. Departure from Atlantic ports is tentatively scheduled for the middle of the coming week.

Although deepest secrecy surrounded a laconic official statement, the startling move was

# Roosevelt Appeals to Dictators; Nazi Press Scores Peace Plea

## Hitler Expected to Reject Bid for Conference

BERLIN, April 15. (AP)—In terms which left no doubt Adolf Hitler intends to reject President Roosevelt's appeal for a world conference, the controlled German press tonight attacked the American peace message which asked for an Italian-German 10-year non-aggression pledge.

The same view was expressed in semiofficial circles in Munich where Hitler weighed his possible answer and consulted by telephone with his Rome ally, Premier Mussolini.

### 'WRONG ADDRESS'

The officially inspired commentary Deutsche Dienst said Mr. Roosevelt had directed his message "to the wrong address."

In Munich, the Fuehrer and Foreign Minister Joachim Ribbentrop mixed a casual tea in with their conferences.

There was still no definite indication whether Hitler would reply personally to the peace message which President Roose-

## Axis Chieftains Entreated to Halt Conquests

WASHINGTON, April 15. (AP)—President Roosevelt has asked Hitler and Mussolini to promise a crisis-weary world 10 unbroken years of peace by giving assurances that they will not send their armies into lands now independent.

He told the dictators that if they comply he will gather the nations of the world about a council table to obtain relief from the "crushing burden of armament" and so rearrange the world's economy that all countries may have access to the raw materials and products they need.

### FRIENDLY BUT BLUNT

Mr. Roosevelt's entreaty, so phrased that while conciliatory and friendly it was always firm and in some passages even blunt, went forward to Rome and Berlin during the night. It was announced at a special press con-

New Peace Hope Sighted in Appeal to Avert Conflict

Leon Blum Believes Constructive Good May Come From Roosevelt's Message

[Leon Blum, former Prime Minister of France and leader of the French Socialists, is another of the authoritative writers contributing to the special news commentary service on European developments inaugurated by The Times.]

BY LEON BLUM

PARIS, April 15.—I had just sat down at my desk this morning to study the general situation in the light of the debate in the House of Commons, and declarations of the French government.

But at that moment I was obsessed by the idea: "Before this article appears, even before I have finished it, what will have happened? There may be a sudden and unforeseen event which can reverse the fundamental aspects of the problem.

For the face of Europe is as changing as a summer sky; clouds are dispersed and again accumulate. Who can determine the direction of the thunderbolt?"

My presentment was justified. The dice have fallen.

PAST RECALLED

The letter of President Roosevelt to the Chancellor of the Reich and the Italian Duce casts a new light on the situation. But it is not the destructive force of the thunderbolt. It is the sun after the rain. Who knows, perhaps the rainbow of promise.

No one can read this missive without recalling the dramatic hours of last autumn. On the morning of Sept. 28, the world press published President Roosevelt's message. This was the most critical moment of the Czechoslovakia incident. On the evening before there had been the news of the mobilization of the Germany army and of the

ing over Europe like a bird of prey, and no one knows where the hawk will pounce.

ATTACK AVOIDED

During the past few weeks, even during the past few days, it has been possible to envision a descent of the Rome-Berlin axis upon Poland, Holland and Greece and against Rumania, Yugoslavia, Lithuania and Gibraltar. The threat is ubiquitous. Disquietude prevails. But this time I am firmly convinced that President Roosevelt has not come too late.

And I am just as sure that his action will be universally approved and appreciated by the French people. There is no single point upon which the French people can be in disagreement with the President of the great American republic. France is definitely determined to fight to the extreme limit of her strength to defend her independence and her freedom, and also the integrity of the nations with which

Martin, president of the Air Lines Mechanics' Association, an independent union, said their organizations are standing firm. The company, which announced that all planes are moving on schedule and with large passenger lists, contended that only 52 of 250 workers involved had joined the walkout. The union asserted that 98 per cent of the line's first two shifts went on strike in Newark, Washington, Atlanta and Miami.

### Greek Delegation to Greet Hitler

ATHENS, April 15. (AP)—Greece, whose independence recently was guaranteed by Great Britain and France, decided today to send an official delegation to Chancellor Hitler's birthday celebrations April 20.

### SURPRISE MOVE

The suddenness with which the orders were issued by Secretary Swanson occasioned lively comment, besides causing grave apprehension. There had been no indication the eastern cruise would be abruptly interrupted and during the past week the Navy Department has been proceeding with scheduled plans for operations along the Atlantic Seaboard. Some important officers first learned of the action from newspapermen.

The White House had little to say about the surprising development, but it was learned authoritatively that the recall orders were issued by President Roosevelt and came on the heels of an unpublicized visit to Washington by Admiral Claude C. Bloch, commander in chief of the fleet.

Admiral Bloch, who was a guest today at Ft. Meade, Md., declined to discuss any phase of the situation, although he conferred with Admiral William H. Leahy, chief of naval operations, within the past 48 hours.

### NEW MENACE HINTED

The unexpected turn of events was due, The Times was informed, to fear that Germany, Italy and Japan are preparing for the most menacing steps yet taken in attempts to expand their international influence.

A reliable source said the United States has been warned that the German fleet, now headed for maneuvers off Spain, and the Italian naval forces, scattered about the Mediterranean, will engage the attention of the British and French, while Japan makes a thrust at Singapore, vital British naval base in the Far East; the Philippine Islands or the Dutch East Indies. There was a rumor that the Japanese may even be preparing to attack Guam, tiny American island in the mid-Pacific which the Navy desires to fortify as an advance base.

### REASONS LISTED

The United States Navy is being returned to the West Coast for two reasons, it is reported. The first is to be ready to defend American possessions—Hawaii or Alaska particularly—and British and French territory, so that these nations can direct their undivided attention to Europe. The second is to lend strength to President Roosevelt's assertions that the United States is ready to back up its promises to repel any aggression against nations of the Western Hemisphere. An influential member of the House Naval Affairs Committee, who said he has received a confidential explanation, indicated that reports from Japan are the primary reason for the unusual action.

Coast Artillery reserve commanding the nine regiments, this skeleton force has been deployed along and behind the defending Blue Army front line that sprawls from Riverside County, down the Lomas de Santiago into the Orange County lowlands north of the rugged San Joaquin Hills, and thence to Hollow Rock just south of Newport Bay on the sea.

### FLEET BOTTLED UP

Because the United States Fleet, in Atlantic waters for maneuvers, has been bottled up in the East by "demolition" of Panama Canal locks, the "enemy" was able to effect easy debarking of its powerful invading forces.

That, tonight, was the theoretical—but highly significant—situation facing the United States Army reserves, Regular Army and National Guard as the three divisions comprising 250 officers and about 400 enlisted men bivouacked at Santa Ana and Tustin on the eve of America's greatest peacetime anti-aircraft maneuvers. Had the hypothetical "war game" problem been a reality, it would have been a tragic one.

### GUNS LACKING

Total gun strength of the trio of service units in the field as night fell was one battery of four anti-aircraft guns of 3-inch caliber and one battery of eight machine guns. This minimum material line-up isn't far from being the Pacific Coast's entire artillery supply.

From Seattle to San Diego the Army could muster only 12 anti-aircraft guns, command officers disclosed.

According to Col. E. S. Stockton Jr., commanding officer of Fort MacArthur, several other mobile anti-aircraft guns are available—but no men exist to

It was understood that Marshal Edward Smiglyrdz, Polish strong man, would become supreme commander of both armies in case of war. Mutual pledges were exchanged orally between Polish Foreign Minister Joseph Beck and Rumanian Ambassador Richard Franasovici in Warsaw and Rumanian Foreign Minister Grigore Gafencu and Polish Ambassador Count Roger Raczynski in Bucharest. Soviet Russia, against whom the original Polish-Rumanian alliance was directed, is expected now to send aid, should Germany attack—for the rich Russian Ukraine is frequently regarded as one of the Nazi goals.

**FEAR COMMUNISM**  
Russia, approached by France and Great Britain to join some aspect of a "grand" European alliance against aggression, would be expected to pledge airplanes, tanks, guns and other equipment. Both Poland and Rumania would rather not have Russian troops on their soil.

**FLAGS MARK POSITIONS**  
Because real weapons haven't even been made for Southern California's defense, the players-at-war poked flag-laden stakes into the ground at the strategic points indicated by the high command. The latter staff men directed operations from the normally peaceful Tustin High School, a few miles near the "front line" than Santa Ana.

At noon tomorrow the umpires will hold their "critique" to determine whether Col. Evans' men fulfilled their mission, whether the gun batteries were emplaced according to orders released at staff meetings, and whether — were wartime conditions prevailing and the brigade equipped with real guns instead of dummies—the enemy might conceivably have been repulsed.

Stars, executives and directors began arriving in early evening and throngs continued coming to the games and dances until nearly midnight. The festivities continued almost until dawn.

Two dance floors filled a large canvas-covered platform 200 feet long. This served as a night club-cafe. More romantically inclined celebrities found interest in a terrace and garden, a harvest moon hung in the eucalyptus tree, and a solarium.

Two game rooms and a huge kitchen were constructed especially for the ball.

### BRINGS IN \$6000

Six hundred advance reservations provided a total income of approximately \$6000 and an additional 100 guests arrived during the evening. Each film notable purchased chips as he entered to participate in various festivities.

Mrs. Anne Lehr, head of the guild, was enthusiastic over success of the function and said plans are to make the benefit ball an outstanding Hollywood social event annually.

## Megladdery Sued for Taxes

### State Income Levy Division Seeks \$995; Action Names Wife

OAKLAND, April 15. (AP) — Mark Lee Megladdery Jr., former secretary to ex-Governor Frank F. Merriam, was sued here today by the State income tax division for alleged back taxes totaling \$995.

### WIFE NAMED

The complaint, filed in Superior Court by L. S. Young, chief of the income tax division, also named Megladdery's wife, Louise, and stated that during the past four years Megladdery banked \$34,515 in excess of his \$5000 annual salary as secretary to Merriam.

Megladdery was indicted Feb. 11 by the Alameda County grand jury after a lengthy investigation of accusations that while a secretary to Merriam he solicited a bribe to obtain a pardon for Clarence (Chick) Leddy, convicted San Jose murderer.

The indictment charged him and Edwin M. Geary, Oakland, former member of the State Athletic Commission, with bribery and grand theft.

### AMOUNTS LISTED

In another indictment, Megladdery was charged with passing bad checks, grand theft and conspiracy to commit grand theft.

Exhibits attached to the income tax complaint stated that Megladdery banked \$8967 more than his salary in 1935, \$11,412 in 1936, \$8706 in 1937 and \$5428 in 1938.

The complaint, signed by Dep. Atty. Gen. H. H. Linney and James Arditto, also asked Megladdery to pay 6 per cent interest on the tax sum assertedly due the State.
