

STATISTICAL SUMMARY:

~~Following~~ Following ~~will~~ will be found a compilation of purely statistical data and information on the project for the two-month period of its operation during the Summer months prior to the opening of the schools.

Naturally these statistical facts cannot include human interest information which was exerpted every week from thousands of reports of our workers, timekeepers and local executives. These, in themselves, would comprise a volume of inestimable value to anyone interested in this field of endeavor. They are on file, for reference, together with all records of this project, in the office of the Los Angeles County Department of Recreation, Camps and Playgrounds.

~~Statistical data and information project #821~~
~~July 10th to September 10th, 1933, Inc.~~

STATISTICAL DATA & INFORMATION PROJECT #821
JULY 10TH to SEPTEMBER 10TH, 1933, Inc.

1.	Number playgrounds where R.F.C. workers employed, under organizaed recreation systems	268	
	New areas opened,	85
