# GET CONNECTED

**joined, linked, merged,  
attached, intertwined.**

### How do you stay Connected?

We're part of the Technology Era; the creators and users of today's biggest technological breakthroughs. We have things our parents couldn't even dream about: Internet, cell phones, iPods computers... so many ways to stay **Connected**. The Internet itself has so many things to offer for our social lives. There's Facebook, Myspace, Twitter and so much more. With all these magnificent ways to join our hearts, link our souls, and just keep in touch, it's no wonder this year's theme is **Connected**.

**Connected** is years of friendship, whether lifelong or from the beginning of high school to the end. **Connected** is older family and friends teaching younger ones the ropes of high school. **Connected** is getting your drivers' license to spend more time with your friends. Most importantly, **Connected** is being brave enough to break the status quo. **Connected** is us.

Class of 2011, forever strive to be yourself and always stay **Connected**.

Freshmen have many worries as they walk on to the Golden Valley campus for the first time. Some are wondering if the horror stories they have heard are true, if their classes are going to be hard, and what new friends they will make. Freshmen Tristan Murchanin and Dominic Scaglione walk through the campus conquering their worries and ready to take on the challenge of High School.

**United again:** The re-connection of Joshua Escoc and Aaron Bautista helps show just how much joy the first day of school can bring to students. The start of the school year is when students see their friends again, talk about all their summer adventures and prepare to create new High School memories.

This year's 2010 Powder Puff teams had the most exciting games this school has ever seen. For the first time this year, all classes: freshmen, sophomores, juniors and seniors were allowed to play. The seniors were victorious, but all teams played a great game. The players would like to thank their classmates, family, and teachers for supporting them.

During the annual Great Shakeout drill, students across California learn how to take proper measures in the event of a real earthquake. Students climb under their desks to protect themselves during the simulation.

Search and rescue staff put on their safety gear and begin looking for anyone injured during the earthquake. They take steps to find students and staff members among the debris who are designated as wounded for the drill.

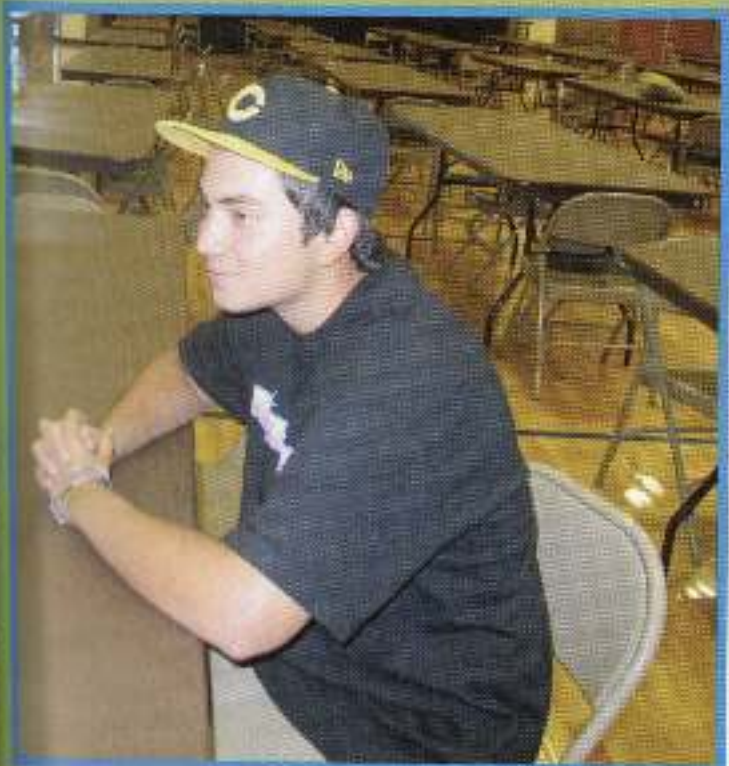

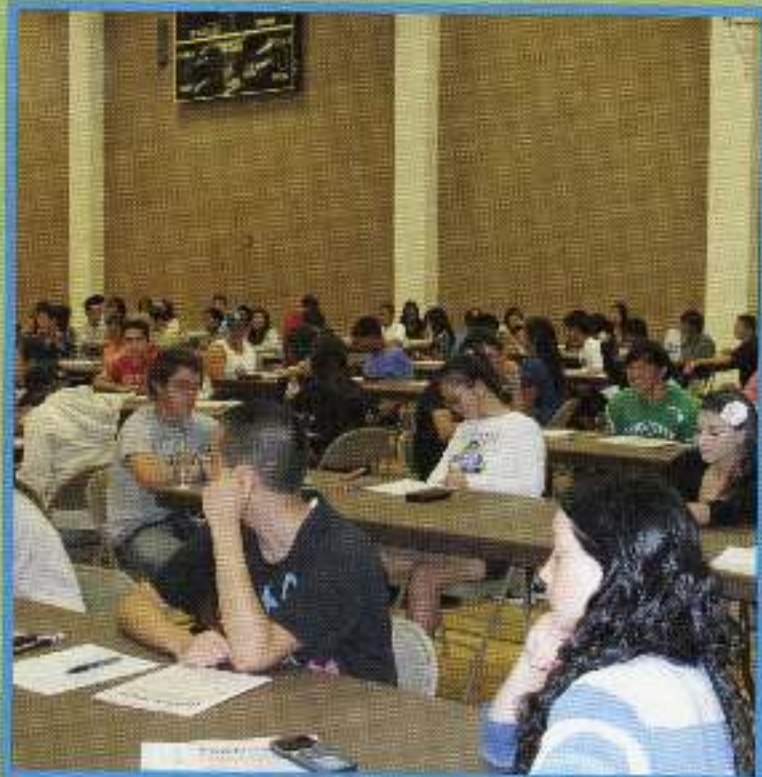

All safe students wait on the fields with their 4th period classes as staff members ensure the campus is safe and secure.

Students return to their 4th period classes after an hour. Now safe and sound, they reluctantly head back to commence work.

## VARSITY FOOTBALL

Coaching is an intense role that Head Coach Campbell took on when he became a Grizzly last year. His approach to coaching is to treat his players like a family. Campbell makes himself approachable and only yells when absolutely necessary. "I try and be on the friendly side of coaching because I don't believe in coaching with fear," shares Campbell. During the past two seasons, he has developed the trust and respect of his varsity players, who also view Campbell fondly.

This season was full of intense excitement, as well as learning experiences, but overall the team evolved immensely. "Our first win was exciting, I didn't have a plan 'B' speech," Campbell reflects. "I'm happy the way things ended up, not satisfied but pleased with the records we got." Many Grizzlies share Campbell's belief that the guys have come a long way and will only do better next year.

Grizzlies never give up; they just keep training. Practice is not just practice, it is a learning experience that is helpful to the team.

The team's training regiment consists of cardio workouts, as well as stretching for the first 15 to 30 minutes.

Above, the Grizzlies get ready to battle on their home field with great passion.

## Why did you join the team?

Asahyn Zaphen, 11th grade, "I joined the sing/dance team to support our grizzlies, perform, and show off my dancing skills."

Paula Gomez, 12th grade, "I joined because I wanted a team that seemed as close as family, where you have so much trust in each girl."

Devyn Howell, 12th grade, "I joined the team because freshman year I was kind of shy, and I knew joining would make me more confident and social."

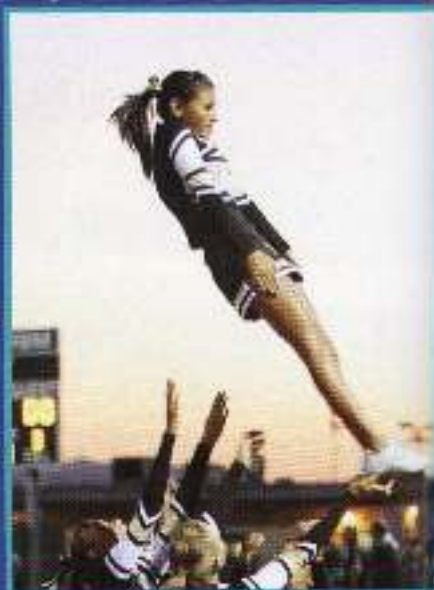

Ariel Thompson, 10th grade, "I joined because I looked really fun to be a cheerleader and I wanted to support our grizzlies."

Adrienne Pierce, 11th grade, "I joined because I wanted to spend more time with my friends and also support our school spirit."

Bernice Dedeles, 12th grade, "Honestly, I joined because of the uniform, and I wasn't much of a runner, so cheer seemed to be the perfect option."

As a cheerleader, a lot of time and dedication needs to be put in several hours a day after school, and it is amazing how much they love it. To the left, a few of the cheerleaders were asked what influenced them to join and stay connected to their team. They told us that they enjoy it a lot and treat each other like family.

For the Varsity Girls' Volleyball Team, this year has been all about working hard and working towards the future. From sweating it out during practice to busting their chops at games, these girls have been giving their all, 100% of the time. Junior Megan Badovinac says, "Girls' Volleyball this year has been going great. I love playing and having an awesome team just makes it all that much better. We have made major improvements from last year and I hope we can carry that into next year." Badovinac continues, "Last year was more of a recovering year from losing our coach and getting used to a new one. By this year we have a dedicated coach who we can trust to help us. It has been a wonderful season so far. I am already stoked for next year."

Right: Preparation is a big part of the game. Katie Nicholson gets her momentum before she serves the ball into the court to begin the game.

After a winning game to show their sportsmanship the team high fives their opponents. Sportsmanship is one of the biggest things not only in volleyball, but in all sports. It is always good to show that you are a good team player & you can also play well against other schools.

## Cross Country

Running in Mammoth over the summer is one of the team's favorite ways to train for the upcoming season.

Left: Timothy Garcia  
Right: Nicholas Alexander

The coaches guide their runners through their daily warm-up.

After warming up, the girls decide to get a quick drink of water to refresh themselves.

## Preparation

The girls are elevating their legs to drain the lactic acid, as part of the muscle healing process.

Runners have to do core workouts after each run.

"The hardest part about running is probably that you have to think about it all the time. In order to have the season that you want, you have to make sure you stay healthy and don't get hurt. This involves icing, stretching, eating right, and drinking a lot of water. You need to devote so much time to it, but in the end it is what gets you that dream season."

-Brendan Tinoco

Icing their legs in the streams of Mammoth, Abhy Buckhoff and Jessica Hawley push through being cold.

Before they start their run, each runner has to stretch.

Icing your legs is essential in cross country. The ice helps open up the blood vessels in your legs to flush away the lactic acid and pump new blood in. This promotes muscle healing.

The team members ice their legs together in freezing cold trash cans.

Patrick Giles

## Fun Facts

Tend to replace running shoes: every 2-3 months

How much water they need to drink before practice: half a gallon

Hardest run: 16 mile progression run

How many miles the varsity boys run in a week: 60-70

How many miles the varsity girls run in a week: 40-60

What the team does to **connect**: Pasta parties before races, going to Mammoth over the summer, varsity going to Clovis, and running together.

"I'm definitely the runner I am today because of the coaches. They pushed me really hard and helped me accomplish running for the varsity team when I would have never thought that possible a few months ago. The girls on the team are definitely another part of it also because they are the ones who helped show me the ropes and they have always been extremely supportive."

"I decided to join cross country my junior year because I thought it would be the best way to prepare for track season. I don't always like to run, but sometimes it's fun and it keeps me in shape. I wish I had joined earlier though because they're a really good team."  
-Katrina Lauron

"I would say that the hardest part about cross country is also one of the greatest parts about it. You get out what you put in. So to be the best, you have to give the most. Finding 6 other guys beside you that are willing to do the same is also pretty difficult, but if you can do it, it all pays off in the race."  
-Juan Garcia

"I joined cross country because it's not a sport a lot of people recognize. It's one of the hardest working sports programs on campus. Everyone puts 100% into it and there is no bench so everyone gets to run. We all have a great time running and it's a huge challenge. I love challenges."

## Worst Golf Outfits!

John Daly is a well-known golfer. He is recognized by his signature swing and his unusual style.

Daly sticks his tongue out at his opponent after he made fun of his ridiculous outfit.

Here Daly sports his white red zebra pajama pants on the golf course.

His yellow and black checkered pants give some a headache, ouchy...

"Chad, when you are a man, sometimes you wear stretchy pants in your room. It's for fun." - Niche Libre  
Hmm maybe Daly should have left these stretchy pants at home...

Daly walked into a tournament showing off his new sneakers.

When the girls get their breaks they all goof around and laugh with their coach. Some common comments are: "Omg! Harry Potter is coming out soon" and "wow who just loves Justin Bieber."

"Over the summer training program, Mr. Moskal would always call me a 'dingdong' for not swinging the club right. haha." - Jada Selexman 9th

Mr. Moskal always takes his time to make sure that each girl fully understands the golf technique. Concentration is key.

"The way you ask a girl to formal is... well you have to be sure she would want to go out with you in the first place. Then, when both of you are alone you would ask her if she is going with anyone to formal. Then be respectfully straightforward and ask if she wants to go with you. It's not cheesy; it's straight forward."

"This was definitely my favorite winter formal at GV. Being able to spend the night with my friends and having my fortune told made the night carefree and wonderful. **1) Taking the Extra Step**  
Finals call for studying, studying, studying! Students go to the library during brunch, lunch and after school just to take that extra step toward getting a good grade on their final exams.

**2) Practice the Concepts:**  
Review packets and study guides make studying for finals a lot easier. Diligently reviewing, Kit-Ka Lai and Katie Nicholson practice the concepts for their finals.

**3) Have a Good Time Together**  
One of the easiest ways to study for a class and not make it such a chore is to study with a group of your closest friends. That way you can not only prepare for your final exams, but you can also create more inside jokes and memories with your best friends. Anjela Saet and Dominic Marzan study for their exams and have a good time together while doing it.

**4) Last Minute Assignments**  
It may not be the most exciting thing to do on your free time, but the late night cramming and constant note-taking become worth it when you earn that high grade in your class. Focused on do their best on all their last minute assignments, Grizzlies gather in the library.

A good friend is a connection to life - a tie to the past, a road to the future, the key to sanity in a totally insane world. ~ Lois Wise

1] Eleven years ago at Valley View Elementary School, Connor Grose and David Ziegler met each other during first grade.

What did you do when you guys were younger?

"When we were little we would pretend to be superheroes, go on adventures, make comic books, and build things."

What do you guys enjoy doing now?

"Now we hang out by playing guitar, skating, or playing ping-pong."

2] Friends Lindsey Espinosa and Lauren Bermudez have been friends since Lauren was three and Lindsey was almost two years old. Their thirteen year friendship was initiated by their moms, who are best friends.

What do you girls enjoy doing together?

"We enjoy going to concerts and have sleepovers."

Do you girls think you will be friends in twenty years?

"Yes, we've been through so much already that we could probably make it through anything."

3] Meeting in school, Garry Knight and Christina Biram have been friends since the fourth grade. Christina had just moved to Santa Clarita and Garry was the first person to really try to become friends with her. They now both know each other to the point where they finish each other's sentences and assume that they will be friends for a long time.

What do you guys enjoy doing together?

"We both enjoy film, hanging out with friends, hiking, pretty much anything outside of school. Out of the two of you, who's more adventurous?"

"I am the adventurous one." -Garry

"No, I think I am the adventurous one."

-Christina

4] "We have been friends for twelve years now and probably know each other too well. We know each other's likes and dislikes and can pretty much read each other's minds. When we were little we would play Polly Pockets for hours and would have so much fun. Now we spend our time having sleepovers, even on school nights, and are always together because we are on the same volleyball club team."

-Heather Tieben and Hannah Allen

6] Four years ago Dominik Googe and Devon Watson met at summer school. Do you guys think you will be friends in twenty years?

"Devon has no choice." -Dominik Googe

What is the most embarrassing moment you guys have shared together?

## Interview Do's + Don'ts

### 1] Do

Dress appropriately for the industry.

### 2] Don't

Be late. This is your one chance to show who you really are.

### 3] Don't

Make excuses. Even if you are late... don't bother! Simply say you are sorry and it won't happen again.

### 4] Don't

Don't give the impression that you are only interested in the college because of its geographic location.

### 5] Do

Expect pressure from your interviewer. They want to make sure you can handle it.

### 6] Do

Make sure you listen to the interviewer's name and the pronunciation. It's embarrassing to mess that up!

People who aren't into clothes... are! We all wear clothes, all of us. Some of us might not want to be fashion designers, but we use our clothes to express ourselves. We all have different styles and different tastes and that is part of the reason why we are all great. We don't realize that clothes can play an important role in our lives.

Clothes express our identity inside. Teachers, students, librarians... can tell the story of who they are and what interests them with their clothes. It's quite amazing how someone can do that just using material that costs a buck for a yard. Ladies and gentlemen, show your style and be yourself. Let your fashion sense shine through!

# Dancing with G.V!

Golden Valley Dance/Competition Team

For the first time, Golden Valley High School was introduced to a new, performing arts group. No, it is not "Glee" or "High School Musical," but it is known as the Golden Valley Dance Team. Consisting of at least twenty-one girls, these amazing dancers aspire to become one of G.V.H.S.'s top groups under the supervision of Mrs. Anthony (Head of the Honors English Department)

and Trevor Lynsky, a hired professional dancer. Out of the twenty-one dancers in the Dance Team, at least ten of these girls compose the Competitive Dance Team, a more intense version of the Dance Team where the dancers work harder and compete with other high schools. Working after school, these dancers dedicate their time, money, energy, and lives to the art of dance.

## Lady Grizzlies' Varsity Soccer

Girls Varsity Soccer is making their paw print in Golden Valley history. They had a tremendous victory as they tied the top team in Foothill League, Valencia High School. They came out strong with confidence and courage, determined to show those "Vikings" what it's like to lose a battle against the Grizzlies. These girls have created not only a winning team, but also

a group of sisters. Their bond is immeasurable, with all the inside jokes and laughter they share as a team. They always have each others' backs. The Lady Grizzlies are an amazing bunch of girls, making their mark and showing everyone they can break their losing streak and create a new tradition of being the best and improving even more along the way.

"As we step foot on the field today forget about everything outside of soccer and remember that we are a TEAM, we win as a team and we lose as a team. Play with pride and heart, and most importantly NEVER give up!"

-Coach Jose

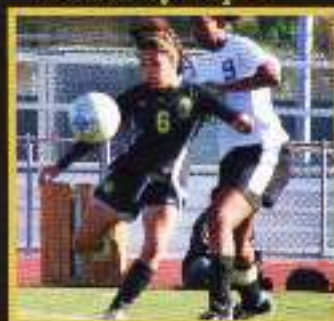

#10 Rachel Hoefft

I've been on varsity since my freshman year, and the team has come a long way. We used to be blown out every game, but now we're tying the teams that used to beat us badly. We've been working hard; everyone plays with so much heart and dedication. I know that we are going to give every school a run for their money. This team has never been stronger and I'm proud of my team and to be part of Golden Valley girls' soccer.

### Rookie Initiation

Since the school first opened, girls' varsity soccer has made a tradition of initiating the rookies, who are freshmen and sophomores. The upperclassmen do this to show the underclassmen that they have been accepted by the upperclassmen. It's an event that is fun for all and helps develop the team's familial atmosphere.

## Boys' Varsity Soccer

Victory only comes with hard work and the motivation to improve. The Boys' Varsity Soccer team knows this better than anyone else. Dean Mavrakis, a senior on the team, shares his thoughts on what motivates him personally to play his best in every game. "A strong aspect that motivates me to do my best is the pride

I have for playing soccer and for my teammates. I have great respect for the game; I enjoy working well with my team by passing and creating a rhythm to be rewarded with a goal. The feeling of winning at the end of a game is the best. I always aim to win so I can achieve that feeling every time I play."

1. The ball is skillfully maneuvered by Thaye Lbarwang.

2. Watching the ball carefully, Alejandro Rodriguez stays alert and in motion.

3. After clearing the ball across the field, Fernando Lanchu has a lot of momentum left over.

4. Simultaneously both Juan Cardenas and Francis Diaz go up for a header.

5. Josh Torres waits patiently for the ball to be put back into play.

# Frosh/JV Boys' Basketball

Here at Golden Valley, the Freshman and JV Boys' Basketball teams have worked extremely hard this year to perpetuate their good reputation. They have proven that, with a lot of hard work, they can have great games and still have fun.

"This season didn't go how we expected. We feel we could have done a lot better." -Daniel Carrillo (Point Guard) Given their hard work, we have no doubt they will.

# GLOWing RALLY

GLOWing  
Reviews!

Vanessa Ponce

The Glow Rally was very entertaining, especially the backlights which made almost everything glow! The performances were pretty good as well. My favorite part would have to be the new A-Crew. They were amazing!

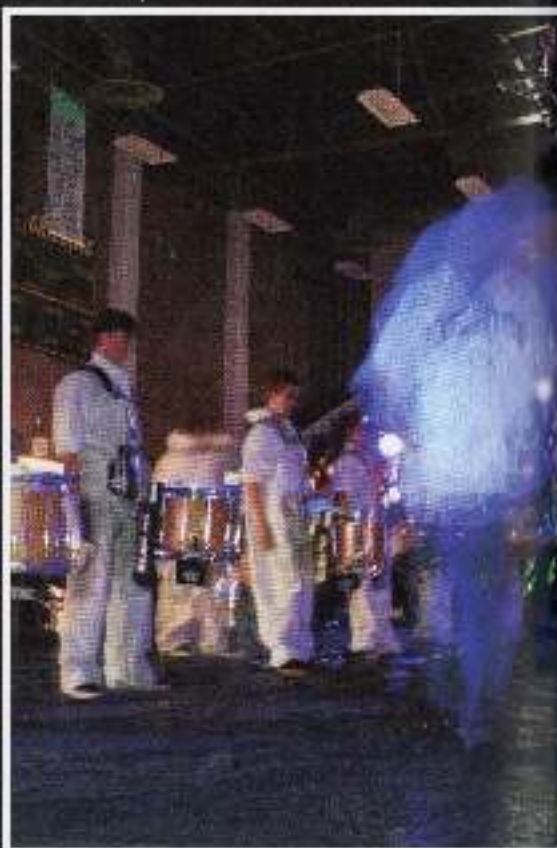

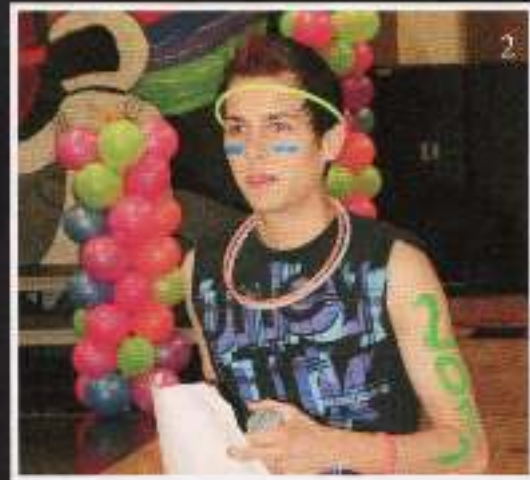

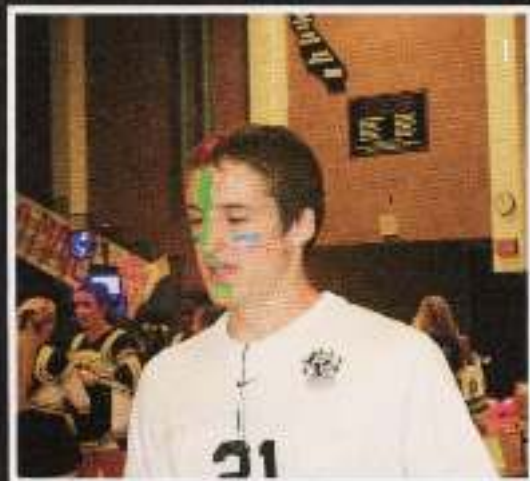

1. Excited, seniors Joshua Escobé, Joseph Botero, and Brian Luey watch intently at the GEOW rally.

2. Showing his awesome moves, Aaron Baulista takes center stage with an enthusiastic audience cheering him on and Daniel Zatarain dancing close behind.

3. Flying, Paula Gomez relies on Megan Auer and Amanda Garvis as her support system.

4. In the middle of their amazing performance, Evan Munzo and Youssef Brady take a split moment to breathe. They then go on to finish a very entertaining performance.

## GLOWing Reviews!

Mansel Ramirez

The Glow Rally would have to be the best rally I have seen at Golden Valley so far. It was very fascinating with the special effects to really make it glow. But the most entertaining thing would have to be the amazing drumline.

1. Showing his pride and excitement for the GLOW dance, Anthony Somoano walks to the stands with his spirited painted face.

2. ASB president Matthew Rayburn prepares to pump up the rally crowd for some GLOW dance spirit.

# ...RADIATING PRIDE

Right: But what if you're not much of a dancer? Then the ASB staff had Rock Band set up for you to play when you needed a quick break from the constant dancing. During the dance Cameron Rosin and Tiffany Lizakowski showed their instrumental prowess.

#### 1] Enjoyed by all

This dance is a blast for both the lower and upper classmen. Friends and classmates scooped out the dance floor for the next person to dance with. Blake Noll, Adrian Carballo, Joshua Escoe, Daniel Jeon, and Sean Ingrahm show off their swag.

#### 2] True colors of GLOW

What was the real goal for GLOW? Was it to have fun with friends? Was it to have the chance of dancing with someone new? How about all of the above? All around the gym Grizzlies, such as Brianna Merrill and Kayla Pippin, were hanging out, dancing, singing along to the music, and meeting new people from other schools.

#### 3] The GLOW outfit

The GLOW dance had its own dress code and people were walking around with eclectic styles. Students dressed up in ways that let their unique personalities show. There were bright colored tights, headbands, pencil skirts, loose shirts, and even colorful dresses. Everyone looked great!

#### 4] The success

"I liked how everything was organized, with all the lights, decorations, and music," said freshman Elaine Pusey.

#### 5] Who did you bring?

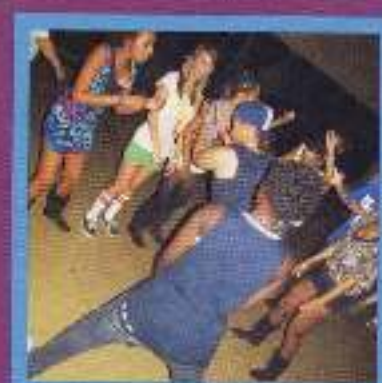

GLOW didn't only have Golden Valley students; it was the hot spot for all high school students on the night of January 29. Golden Valley students brought guests from other schools, allowing Grizzlies to connect to teens from all over Santa Clarita. The dance was enjoyable because there were new faces and new people to meet. Junior Isa Bey brought his girlfriend to the dance; they showed their connection by wearing matching shirts.

The laser tag attraction had everyone talking. Anna Pineda and Aaron Ramos competed against each other in a friendly game.

## Favorite Part

"My favorite part of the whole experience was definitely getting to know the other guys on a whole new level and have fun while doing it." - Matt Rayburn

"My favorite part was the rehearsal, but also the whole event itself. It was fun when we all went to get ice cream after it was over." - David Jose

"My favorite part was being with everyone during practice, rehearsal, and backstage. We just had a lot of fun the whole time, from the first meeting, to after the show." - Anthony Somoano

"My favorite part was obviously when I won 'Congeniality', which by the way is the swag award. But besides that I really just enjoyed having fun with everyone in the competition because we are all such good friends."

- Garret Rouleau

"It felt awesome to win! To know that I was practically representing the entire male population at Golden Valley was a pretty cool thought. After losing last year I was determined to win it this year. By the end of the competition though, I didn't really care who won, because I knew I had fun and so did all of the other guys. I so was happy with how hard I had worked that just being able to go out and entertain the crowd was a enough reward." - Colton Korne

## Fun Facts

How did they choose their superheroes? They selected some superheroes during their first meeting, discussed their top choices and came to an agreement on who got which superhero.

Mrs. Werts' APES students learn about the requirements for sustaining marine life. Unfortunately, many learn how hard it truly is. Nevertheless this type of learning is priceless.

*Dead or alive?* With each passing day, everyone looks at their organisms to see how they're doing and if they are even alive. Discouragement sinks in when the students finds their subjects dead.

## Why Did They Die?

### No Oxygen

A lack of oxygen in the bottles was one of the main reasons the organisms died. .

### Suicidal Worms

From the lack of nutrients and competition, worms fall into the aquatic part of students' bio-bottles.

### Temperature +/-

Certain creatures will die if the temperature gets too hot or too cold. This was a common case among the experiments.

By George Lutz

Left: Sabrina and Jordan check their bottle to see how their creatures are progressing. They then record their results for the entire day.

# HOW TO

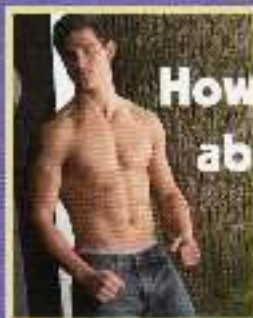

## How to: buy the best gift for graduation

Graduation 2011 is around the corner. What do you get for your favorite Grizzly senior?

Best choices:

- Money is always a good, quick gift to give. It's easy and the recipient will love it.
- Luggage is always a useful gift. If your Grizzly pal is going off to college, he/she might as well get something he/she is going to use.
- Is the grad a girl? Then fun and cute things she can use to hang up on walls or decorate for her dorm room would be very appreciated. Try picture frames, furry pillows, warm blankets, etc.
- Is your favorite Grizzly a book worm? Books are great if you are looking for an inexpensive yet thoughtful gift. You can give a practical book such as "The Dorm Room Diet" by Daphne Oz, that will help a high school senior keep a healthy college lifestyle. Or you can present the graduate with a fun book like "Oh, The Places You'll Go" by Dr. Seuss.
- Digital Cameras are always great gifts. Your guy grad is probably ready to branch out and have new experiences. Why not help him make those memories last?

## How to: get six pack abs in two weeks

Maintain consistent workouts throughout the week  
Maintain a consistent diet as well

## How to: cut your own hair

In this economy you need to know how to live on a budget. Here is a secret one Grizzly swears by.

- Step 1:** Wet your hair.
- Step 2:** Smooth sections of your hair through your fingers and cut all hair in one straight line across. Be sure to work in small sections and continue from one side to the other.
- Step 3:** Run small sections of your hair between your index and middle fingers to see if there are any long pieces. If you find some, carefully snip off the excess. If you have curly hair, be sure to cut your hair considerably longer than the desired finished length.
- Step 4:** Be sure to check that the cut feels even everywhere. Simply take sections of hair from opposite sides of your head and gently tug them toward your eyes, nose, chin and jawline to see that the sides are fairly evenly matched. Carefully trim pieces that seem a little too long.

## How to: make lip gloss out of eye shadow

- Step 1:** Choose a fun colored eye shadow that you don't mind using a lot of.
- Step 2:** Scrape the eye shadow into a small container.
- Step 3:** Put some clear lip gloss in that same container.
- Step 4:** Mix together the two materials.
- Step 5:** Apply to your lips and show off your new lip color.

## How to: text without your teacher knowing

"I pretend like I am looking for something in my bag, when I am actually texting somebody."

-Kristie Moody

"I always use the book from the class and put it flat on my desk. That way when I'm texting, the teacher thinks I am paying attention, but I am actually texting."

-Danielle Saavedra

## How to: study last minute

"Try not to study last minute in a class, but if you have to, it always helps to look over the most important facts of that section or chapter. That way you will know the material that will be on the test."

-Fernando Lauchu

## How to: have swag

## How to: tell someone that he/she has bad breath

"You can't tell the person, so just hand her a piece of gum. Maybe she'll think you are being nice."

-Rachel Wilson

"Just take notes on me!"

All of these shoes were shot at lunch. When asked to take shots of their shoes, people continuously always ask, "Why?" People often forget what place their shoes hold. Shoes say many different things about us like "I'm comfortable" or "I love fashion!" We have all been asked if our shoes were new, or how much they cost. But the truth is that it doesn't matter. What matters most is that shoes cover our feet and help us express who we are.

# International Connections

"Travel is more than the seeing of sights; it is a change that goes on, deep and permanent, in the ideas of living."

—Marian Brand

In July of 2010, Mike Thompson traveled to the ZOE Children's Home in Thailand with The Sanctuary and Haven house foursquare churches on a missions' trip. ZOE is an organization that helps fight against human trafficking. He took a plane for an 18 hour flight with a 5 hour layover in Taiwan.

*What was your favorite part of your trip?* "Meeting the kids at ZOE and riding elephants that are extraordinarily smart!" *Were there any major differences in culture that you noticed?* "The people down there were incredibly kind and gracious. For example, the missions' team and I walked around in some mud for a while and we took our shoes off before entering a building. When we came back, our van drivers had hand washed our shoes and they were drying in the sun. They don't wear shoes on carpet, don't speak badly of the government or king, don't touch anything with their feet besides the floor, and they can teach religion in schools." *What was the most bizarre thing you saw on your trip?* "A billboard that explained that anyone caught smuggling drugs into Thailand would be executed. Also an upper-class neighborhood called 'Richy- Rich Land'."

Isabeau Lauron traveled a thirteen hour flight to three different locations in the Philippines: Manila, Bohol, Boracay, Cebu, for a family vacation as well as a family reunion during the Summer of 2010. *What was your favorite part about your trip?* "The beaches in Boracay. It's really beautiful. The sand is white and unbelievably soft. Also, the water isn't cold like the beaches in California." *Were there any major differences in culture that you noticed?* "People pile into the local buses, called jeepneys. They're hanging from the back door or riding up on the roof. The streets there don't have crosswalks either; people just cross wherever they want. The cars don't have seat belts because only the driver is required to wear one, and the driving is a little more reckless because there aren't many rules to follow."

"I would love to go again. The beaches are beautiful and it has the largest mall in Asia. Most importantly, many of my family members, live there including my grandparents."

by Betsy Thompson

Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover.

**Mark Twain Sweden**

Joanna Lagunas went to Gotenburg, Sweden in July of 2009. Her soccer team went to represent the USA in the Youth World Cup. She traveled there by plane on a red eye 15 hour flight.

*Was there any interesting food you tried down there?* "Swedish pancakes...YUM!" *What was your favorite part of your trip?* "I played on the showcase field (game was televised) on my birthday. After the game I got interviewed by the announcer because I won 'player of the game' award." *Were there any major difference in culture?* "Everybody there was so nice and welcoming. Also they were all blond with blue eyes! I felt so out of place."

While Joanna's team was in Sweden, they won the Youth World Cup with her club soccer team Real So Cal.

**Fun Facts about traveling**

- The first women flight attendants in 1930 were required to weigh no more than 115 pounds, be nurses, and unmarried
- American Airlines saved \$40,000 in 1987 just by removing one olive from each salad served in their first-class.
- The shortest scheduled airline flight is from the Scottish island of Westray to its neighbor island, Papa Westray. Flight time: 2 minutes!

**Taiwan**

Last Winter Break Kevin Ting traveled to Taipei, Taiwan by a 15 hour flight to visit family. What was one or two of your favorite things about your trip? "The food there is absolutely amazing. There is no other way to describe it. When I came back from my trip there everything honestly tasted horrible compared to Taiwan. Even the food from street vendors is absolutely wonderful! The setting is extremely urban so whenever you need to go somewhere to buy something or just go to a park or something it's all within walking distance." *Were there any major differences in culture that you noticed?* "The culture there is extremely different. All of transportation is under one company, so the subway, buses, trains can all be paid using a single prepaid card. You don't see many people drive, most people walk. People are extremely polite everywhere and everyone seems to know each other."

"Taiwan is a great place to be, and the culture is very similar to American culture. If you learn Chinese, I recommend you go there. It is a ton of fun."

**England**

Nicole Adams went to England last summer to go spend time with her grandma.

*What was your favorite part about your trip?* "People's accents and just being in a different place than California."

*How did you travel there? How long did it take to get there?* "I traveled by plane which took around nine hours."

*What was the most bizarre thing you saw on your trip?* "A guy who was from The House of Horrors came on to our double Decker bus and tried to scare my grandma and me, since it was his job."

"My trip was so much fun and there was so much to do there! It was worth the trip and I'm planning on going back."

Q: How close is the tennis team. Do you guys feel like you have some good team chemistry?

A: Our team is really close. Everyone seems to get together quite well. We all watch and support our teammates and try to help each other out. If we have a chance we'll cheer on each other in between our own matches.

Q: I noticed you guys have some funny chants before the matches, why is that?

A: Those cheers are just another thing that our team can have fun with. It's a way of allowing us to be relaxed and ready for the match. There is no need to be tense before a match, and in tennis being tense can really hinder one's performance. We all seem to enjoy it, and Coach Stimac is fine with it, so we do it.

**Tristan Morachanian**  
Q: Who inspired you to join the team?  
A: My uncle inspired me. He played volleyball during his high school year, too.

**Boys' Fresh & JV Volleyball** puts commitment into their practices and games. They have been learning the basics over and over again in order to instill and improve the fundamental skills of volleyball. They have a profuse amount of memorable moments together as a team. Whether it is the embarrassment of tripping and falling during a game, or watching a teammate getting hit by the ball four times in a game, or even getting a bloody nose from Daniel Jeon's spike, their days cannot be described as boring.

During tryouts and practices, the teammates try their best and show their skills. David Ziegler, who has played volleyball for 3 seasons (1 season at GV and 2 seasons outside the school) believes it takes a good mindset to play volleyball.

JV player Tristan Morachanian has played one season outside of school. His best memory of that season was when he got his first kill during the last few seconds of a game. He states, "I feel very nervous, but hopeful that we will win."

**Jasmine Edgson**  
I hold the school record for the 100 meter, & my P.R. time is 12.2 sec. Sprinting comes very naturally to me, so track is one area of my life where I get to genuinely utilize my talents.

**Corey Chaisson**  
I run the 400 and my P.R. time is 49 sec. Before I got my P.R. time I was really nervous to race but I knew I was going to run to my full ability.

**Lauren Huckney**  
In my junior year I got a P.R. time of 57 sec. in the 400 at league finals. If you work hard in track it shows in your races by your P.R. times, there are no politics involved. It is as simple as that.

**German Pineda**  
I chose to do pole vault because my friend Joseph was in it too. I got a P.R. of 12'3". I love track because of the competitiveness, and the people you meet.

**Nicole Watson**  
I first started running track my junior year & made a P.R. time of 2:29 in the 800. Some people think that track is all about running, but they don't understand the amount of time and dedication that goes into it.

**William Small**  
I do both the 300 & 110 hurdles. My P.R. time is 16 sec. for the 110 hurdles. I love track because it is a great way to get stronger and it gives you the chance to show off your skills.

**Maddie Hardesty**  
I race the 300 hurdles and my P.R. time is 47 sec. I started hurdles my sophomore year but I didn't choose it, Coach Evans put me in it, and I'm sure glad he did because I love it.

**Brian Luey**  
I'm a thrower with a P.R. of 132.5'. I broke the school record against Saugus. I thought it would be a normal throw, but something felt different, and that's when I got my record.

**Missy Mello**  
I'm a distance runner with a P.R. time of 5:36 in the 1000. I had been attracted to running through cross country, which contributed to my wanting to participate in the 1 mile & 2 mile.

# Grizzly Beats

(Drumline)

By Joyce Ingram

1) At their first competition, and in their own gym, the Golden Valley Drumline placed the best score of the day, 81.6, and moved up a full division with an immaculate performance of their 2011 show, *Julius Caesar*.

2) The Grizzly Drumline practices for hours on end. For all its members, drumming is their life.

3) One big, dysfunctional family! From left to right, top row: Sadie Kelly, Arbbie Bautista, Lauren White, Brian Gelderblom, Skylar Salmen, Dylan Lindsey.

Bottom Left: Waiting to take the floor, Anthony Bailey, Marianna Pabon and Stephanie Shorter show how excited they are to debut *Julius Caesar*.

Bottom Right: In prestage, Arbbie Bautista, Sadie Kelly and Lauren White are ready to win the acclaim of the judges and every member of the audience.

## Controlled Chaos...

An event of this magnitude would not be possible without the countless hours of planning and preparation contributed by the band boosters and

faculty, not to mention the stress of making sure everything goes as planned.

Below: Exactly where he was almost all day, band booster president Paul Shorter dedicates his time to making important announcements and constantly keeping everyone informed, seemingly without a single break.

Above: Tirelessly coordinating the massive "Grizzly Beats" competition, director of bands Mr. Brooks and band booster treasurer Gail Howes are helping to make everything happen as it should.

"Lotta work, lotta drumming, but a fun day for all." -Mr. Roger Brooks

At the end of it all, the "Grizzly Beats" competition collectively raised a staggering \$3,500 to help fund all branches of the music and colorguard program at GVHS.

## Colorguard

"The colorguard experience is more than worth all the hard work that goes into it."  
-Safia Rashid

▲ Jessica Reyes diligently practices her rifle spins in the small gym.

In the last few years alone, the Grizzly Colorguard has made leaps and bounds in both size and performance-the 2011 season is no exception. Almost tripling in size since the 2010 marching season, the eight members perform their routine to "Not Afraid to be Me" by Kendall Payne with nothing but potential for success.

▲ Seen here perfecting her rifle work, Shawna Rodriguez prepares for a successful competition season.

▲ "Colorguard this year has been a thrill because we have committed people who decided to join, and their involvement has made it worth continuing the sport. I am very proud to be their captain and I hope more people take the opportunity to join." -Colorguard captain Rayna Gomez (Above).

### What clubs mean to people...

"These clubs are made up of people who have certain interests in common. It could be them just being friends who love to talk, or maybe they just want to meet new people. At Golden Valley High School the club members share one thing in common: all Grizzlies love the club they are in. Whether it is the Octagon club, or the Christian Club, or NHS the members all love what they do. This is how we all interact and find people who have the same interests as we do. This is how we find out we are not alone in the world." -Rachel Wilson

# Take Two

GTVV Take Two is similar to GTVV but has its own twist. It happens every other week, and they use comedy to broadcast the news. They come up with music videos and skits, and incorporate outside entertainment to make the news laughable and enjoyable for the students.

Members Colton Kozak and Spencer Pinkston are brainstorming some great ideas.

# Passion for Fashion

(Fashion Design Club)

By: Jazmin Mella

Fashion and Sewing Club is designed to teach aspiring fashion designers to sew and make their own clothing. They take field trips to FIDM to look around and learn about what's big in fashion. They pick their own fabric and design their own clothes such as pajamas, tops, bottoms, and even dresses.

These are some of the inspirational fashion accessories that the girls get ideas from, so they can make their own designs.

## Interview with GSA leader Nicole Arango

1) What is the mission of GSA  
(Gay Straight Alliance)?

I guess you can say...we all have our different perspectives about it. We make it our own thing; I really don't know how to explain it. We're fighting against bullying, so others can see this as a safe home.

2) What are your thoughts about the recent suicides of gay teens because of bullying?

It pushes me to fight against prejudice even more. It's like an eye opener.

3) Why did you join GSA?

I joined because of my best friend that I've known since elementary school. I grew up listening to crappy stories about how he came out in the open about how he was gay. I couldn't do anything about it, but now I can.

4) Do you think gays, lesbians, and bisexuals can truly be accepted into modern American society?

Yes. I do believe they can be accepted. I think this because we've gotten better at accepting others for who they really are. They don't choose to be gay.

Happy, sad, lost in debate, or embroiled in a heated discussion, GSA meetings run the gamut of emotions. Topics arise up that make members cry or make them think deeply about life. They want to make a difference. They want everyone to be treated equally.

# LINKING THE LYRICS

## Why do you sing in the GV Choir? Is it a hobby or a passion?

"I don't know what it is about singing, but it is my passion. Whenever I'm sad or mad, I just sing and I feel a lot better after," says sophomore Bianca Ascencio. "I hope that I can pursue my love for singing in my career, but I'm not sure if it will actually happen. I just know it would be a lot of fun," Ascencio adds with a smile.

# CHOIRS

What is your passion?

Is it soccer, football, baseball, or dance? For students in the Golden Valley Choir, singing is their heartfelt passion. Whether they are striving to reach a new pitch in a song, or searching for the perfect outfit to complement their musical ensemble, our choir students give singing their all.

For GV choir students, it is not about making that perfect pass, scoring a beautiful goal, making that amazing touchdown, or getting that homerun. For them, it is all about earning a solo. A soloist has the spotlight on him/her, has the audience's attention, and has the chance to earn a standing ovation all for him/her.

"When I sing, it is the one time that I get to be myself. I can express myself in a lot of ways, and it just makes me really happy," explains sophomore Danielle Saavedra. "I sing all of the time, even in the shower."

The students in choir are not just taking it to get credit, but because it is a part of their life and their heart. It is their passion!

Time: Around 7 p.m.  
The Victim: "Mickey"  
The Casualty: Twisted ankle and uncontrollable laughter.

"We did great, even though we took a few casualties as a result of the poor conditions. This was the competition that ensured our spot in championships." - Nick McNamara

It was around 7 p.m. when the Golden Valley Grizzly Band took their turn to perform at Moorpark's 2010 Battle of the Bands; the last competition before the GV hand went to SCSBOA Championships. Due to the heavy rains, the field at Moorpark High School was completely waterlogged. This caused at least seven band members to either trip or get a foot caught in the bog. Unfortunately, Miguel Nazario (who plays the tuba) got his foot stuck in a mudpot, and ultimately sprained his ankle. Despite being injured during the show, he pushed through and finished the five-star performance. Later, he found himself unable to walk more than half-way back to the bus. An ambulance was called and painkillers distributed; there was much rejoicing.

## 5 ways you can help the planet!

### 1) Change your light bulbs

- Change your light bulbs to Compact Fluorescent Light bulbs because they last for years, use less energy and produce more light.

### 2) Drive differently

- Try to drive less each month and if you need to go somewhere then try to get a ride or take the bus.

### 3) Go organic

- Eat locally grown food and only fruit and vegetables. Each only those in season because it decreases the amount of carbon dioxide being released from the transportation of the goods. It's better for the environment and healthier for you.

### 4) Buy recycled

- It takes less energy to create a recycled product than a new one. It also makes the product cheaper for you so you can save some money and the Earth at the same time.

### 5) Save water

- Wash a few dishes by hand each night and wait until you have a full load to run the dishwasher.

The main goal for the Octagon club is to help the community. - Alondra Velazquez

# A Green World

(Environmental Club)

By Anthony Della

Saving the environment puts a smile on people's faces.

Discussing a way to help the environment, Marcella contributes her thoughts.

Saving the Earth is business.

Participating in the club discussion, Frank Lee appears very interested.

"Environmental club is a good way to help the environment because we recycle, we clean, and we make the earth a better place."

-Erica Park

Concentrating intently, Maddie Hattesty writes down plans to save the planet.

"The main goal of this club is to try and achieve awareness of environmental problems."  
-Marina del Valle

"I believe that our club is making a positive impact on the environment. We have cleaned the beach and the Santa Clarita river. We also encourage our members to recycle and to promote recycling as well."

-Marissa Gordon

## How much has recycling grown?

6.4% In 1960

32.1% In 2005

## Connected through Japanese Culture

(Anime Club)

by Rachel Wilson

# 愛 Did you know?

-First things first, the word Anime is French and it means Animation.

-Anime fans often dub themselves as "otaku." The word has several meanings, but in this situation, it translates to "fanboy." In Japan, being an otaku is not a good thing.

-Disney has bought the rights to several anime titles and will be releasing them on the big screen.

-In Japan more paper is used for printing manga than for making toilet paper.

-On average, the Japanese take twenty minutes to read three hundred pages of manga.

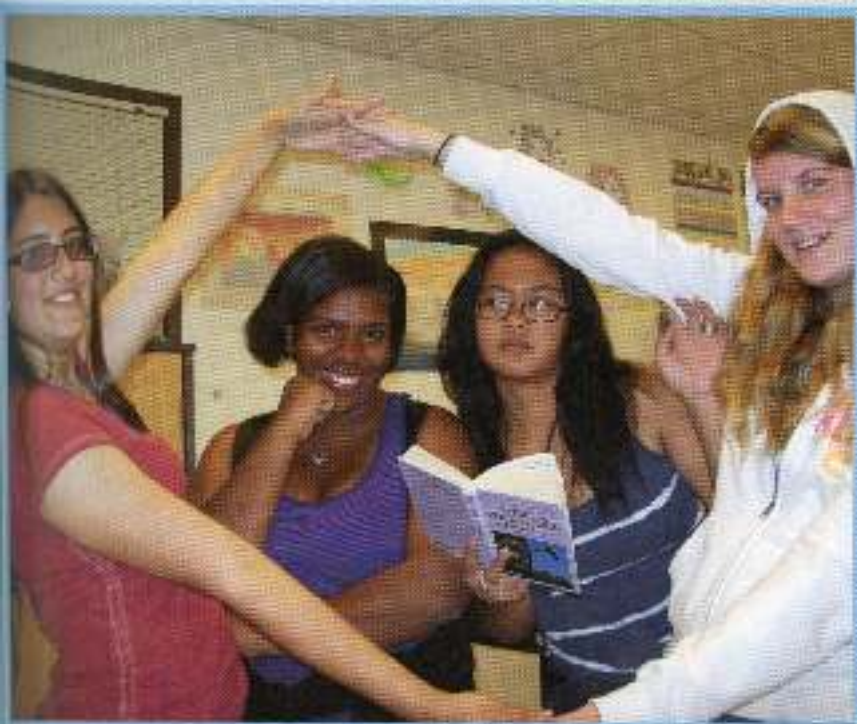

-Manga forms a third of the printed material in Japan.

-In Japan, couples write their initials under the picture of an umbrella, instead of inside a heart.

-Black cats are considered good luck in Japan.

Friends come together every Thursday to watch anime and socialize.

Though old, Yu-Gi-Oh is a popular battling card game among anime club males. Everyone is deep into their duel.

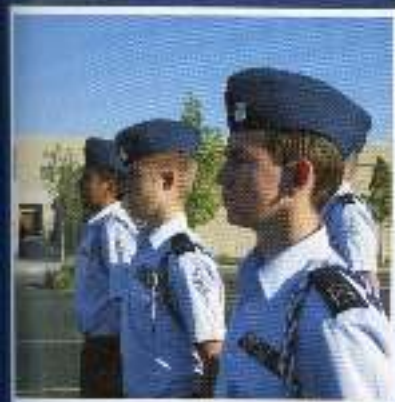

"Heard.  
Understood.  
Acknowledged."

## "It's not a Platoon"

1. An Element is when 3-5 cadets line up in a column.
2. When two or more Elements are combined it creates a Flight.
3. Two Flights combine to form a Squadron.
4. A Group is created when two or more Squadrons combine.

Why do you belong to a club?

"All my friends are there and it's a really fun place to hang out."

- Rachel Wilson

## Human Connections

Human Connections can be formed in many ways. Many Grizzlies use clubs to become connected to individuals and talk about things they have in common. Clubs on the GV campus include: Friends of the Library, Key Club, Christian Club, Anime Club, Theater Guild, National Honor Society, Circle of Friends, Video Game Club, Art Club, Fashion Design, Environmental Club, French Club, Speech and Debate, AVID Club, Octagon Club, and Latino Club. These clubs have brought so many people together in this school. Other Grizzlies have become linked via class-based organizations such as: ASB, Yearbook, GVTV, Band, Yes I Can and JROTC. Additionally, most Grizzlies report feeling very bonded to at least one staff member. How are you connected to GVHS?

## Administrators Just Wanna Have Fun!

See what they do when they aren't making our school a better place!

Below: On Halloween night, the administrators show their fun side as they dress up for the occasion. From left to right, Mr. Nelson as Sherlock Holmes; Mrs. Bennett as Chip from Disney's *Beauty and the Beast*; Mr. Fray as a caveman; Mrs. Hoffman as a Dolly girl; and Mr. Zeevi as a pirate. Who says they always have to look serious?

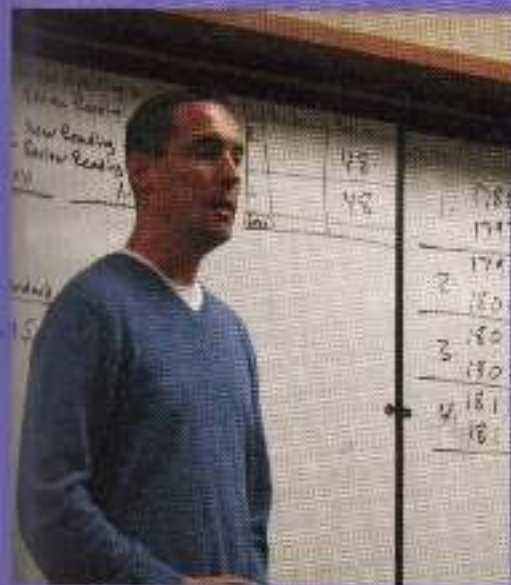

Below: The administration enjoyed the great dance ASB has put on for the year. They pose for the camera after another successful evening.

Above: Even the administration has fun at dances, especially when they pose for the camera at the Winter Formal. There is something a little different about the two in the middle. Can you figure out what it is?

## Brendan Tinoco

Is it difficult to maintain a 4.0 GPA while taking AP classes? Well, Brendan Tinoco holds a 4.0 while enrolled in all AP/Honors classes and ranked in the top seven of the boys' cross country team. This varsity team is unlike any other: they have made it to State three times in a row! Tinoco states, "Being on a team that's been to State three times in a row makes you feel really accomplished, and that you are a big part of something important. By the end of my senior season I want to have gone to State twice more and to have been part of a team that's made it to the podium. Being on the all-league first team wouldn't hurt either." Tinoco is well on his way to achieving his goals. Just a sophomore he averages fifth male on the varsity team. Watch out because Tinoco is determined to run his way to success, crossing that finish line of pride.

## Favorite Sophomore Teacher

Mr. Schock is no ordinary teacher. He has been teaching for 38 years - 34 of which have been in the William S. Hart district - and he still loves it! This school year he is teaching AP World and graphic art classes. 'I really enjoy teaching this sophomore class; they are fun, smart, on-board and ready to do work.' Mr. Schock's main goal in teaching the AP World classes is to come in with a certain knowledge and transfer it to the kids. In addition, he wants to teach them skills to prepare them for college. He is certainly achieving his goal because a great amount of sophomores picked him as their favorite sophomore teacher. They enjoy his class because it is fun, but very hard due to the large amount of work. One sophomore states, 'I don't know why his class is my favorite because it is my hardest class. I think it is my favorite because I learn so much. I actually feel smart! I thought history was boring but Mr. Schock makes it really interesting.' If you have an opportunity to have him as a teacher you should take it because he is funny and a great teacher.

## Danielle Saavedra

Danielle Saavedra connects to many people through classes, softball, choir, and youth group. She loves to be busy with fun activities. She has many goals to accomplish and is on her way to achieving them. Two of her goals for sophomore year are to pass the AP World exam in May with at least a four and to make varsity on the softball team. Saavedra adds, "One of my lifetime goals is to go to a children's hospital, meet every kid at the hospital, and give them candy and fun cards. Also, I would want to thank all of the doctors and nurses because they work so hard." Right now Danielle really enjoys being on the softball team. She states, "Our team is really fun. I really like our new coach. I'm so proud of my team because it has grown so much since last year. I am very excited for this season."

## Bianca Ascencio

You probably have noticed Bianca Ascencio around campus because of how fashionably she dresses, but did you know she is also involved in women's choir? She states, "Women's choir is my favorite class because everyone treats you like a family member. Also, all the concerts and performances just makes it an even crazier (but fun) experience. There are so many trips that I am looking forward to in the following years." We asked her what GV moment she will always remember. She replied, "During P.E. on a boiling and sultry day when we had to run the mile, the sprinklers turned on and everyone ran in the water! It was so much fun. I thought to myself, 'Why are there sprinklers when it is not even real grass?'" Well, if you see Bianca on campus or at a choir's performance, give a warm hello and get to know Bianca and her bubbly personality.

Q: What has been the most stressful AP test you have taken so far?

**Q:** What's your fondest memory during your open periods?

“ My funniest memory was getting discount sushi and forgetting all of it at the restaurant. -Dylan Lindsey

“ The best experience I've ever had during an open period was a random trip down to Santa Monica with my best friends on a Tuesday early in spring semester. We left at lunch and made a whole day out of it, going to the beach, the pier, and ending with a dinner on Third Street. We came back at around 8 or so. # That Was YOU?!?!

## Most Changed Since Freshman Year

**Ebony Febo**

"I used to wear just jeans and a sweater, didn't care what I wore. But around sophomore year I started changing: losing weight, maturing more, wearing contacts, and actually caring about what I wore."

**Mitchell Miller**

"Both my style and personality changed. In 10th and 11th grade I really didn't care much about what I wore or looked like but now I always want to look my best. My personality started to change during 10th grade. I was a shy guy that had a couple close friends but then Chris Malkisch told me to hang out with the more popular kids and he helped me with my shyness, the way I dressed, and with introducing me to new people to make more friends. I also have a different mind set about life since I hang out with the most popular kids or events, so my self-esteem has gone way up. I'm now willing to do things that I thought I wouldn't have the guts to do. Now my group of friends will have the most swag on campus."

*"Your hair is really pretty!"*

*"You have nice hair."*

"The first half of school I had long hair (since 5th grade). Then over winter break I decided to cut it all off. Now I have short hair and a little flip at the front. I usually wear my hair without gel, but when I want my hair looking a little bit nicer, I use it."

## Colophon

Thank you so much for such a wonderful year. I know at times the work load may have seemed unmanageable, however, all of you pulled through the stress. Thank you for the amount of hard work and determination you all put in your spreads. **Cammy**, I love your amazing, funny, and spontaneous personality. I admire you for putting such a unique touch to all your spreads. **Breezy**, you are the sweetest girl I have ever met and I was very proud of all the time and effort you put in to all your work. **Justin**, although you were very quiet in class, I loved all the pages you made. They were all very creative. **Elizabeth**, all your pages were phenomenal. I loved how much enthusiasm you put into each and every one of them. **Jazmyn**, I loved your positive attitude and great ideas. Thank you to Mrs. McCormick for all the dedication you put in our yearbook this year. You were such a great teacher and you made yearbook so much fun to be in. I can't wait for next year. - Joana Lagunas

My section is the greatest. They are very hard working, and they always do an amazing job on their spreads. They are a very creative group and they always come up with good ideas to make the yearbook even better than it already is. The thing I love the most is being able to see all of their creativity shine through their spreads. - Nicole Sanchez

Don't judge a book by its cover. Yearbook staffers learned skills far beyond the cover and did an amazing job. I am so grateful to work with all of you, it was a great year with awesome memories and book well done. Thanks guys. Delaney Bish

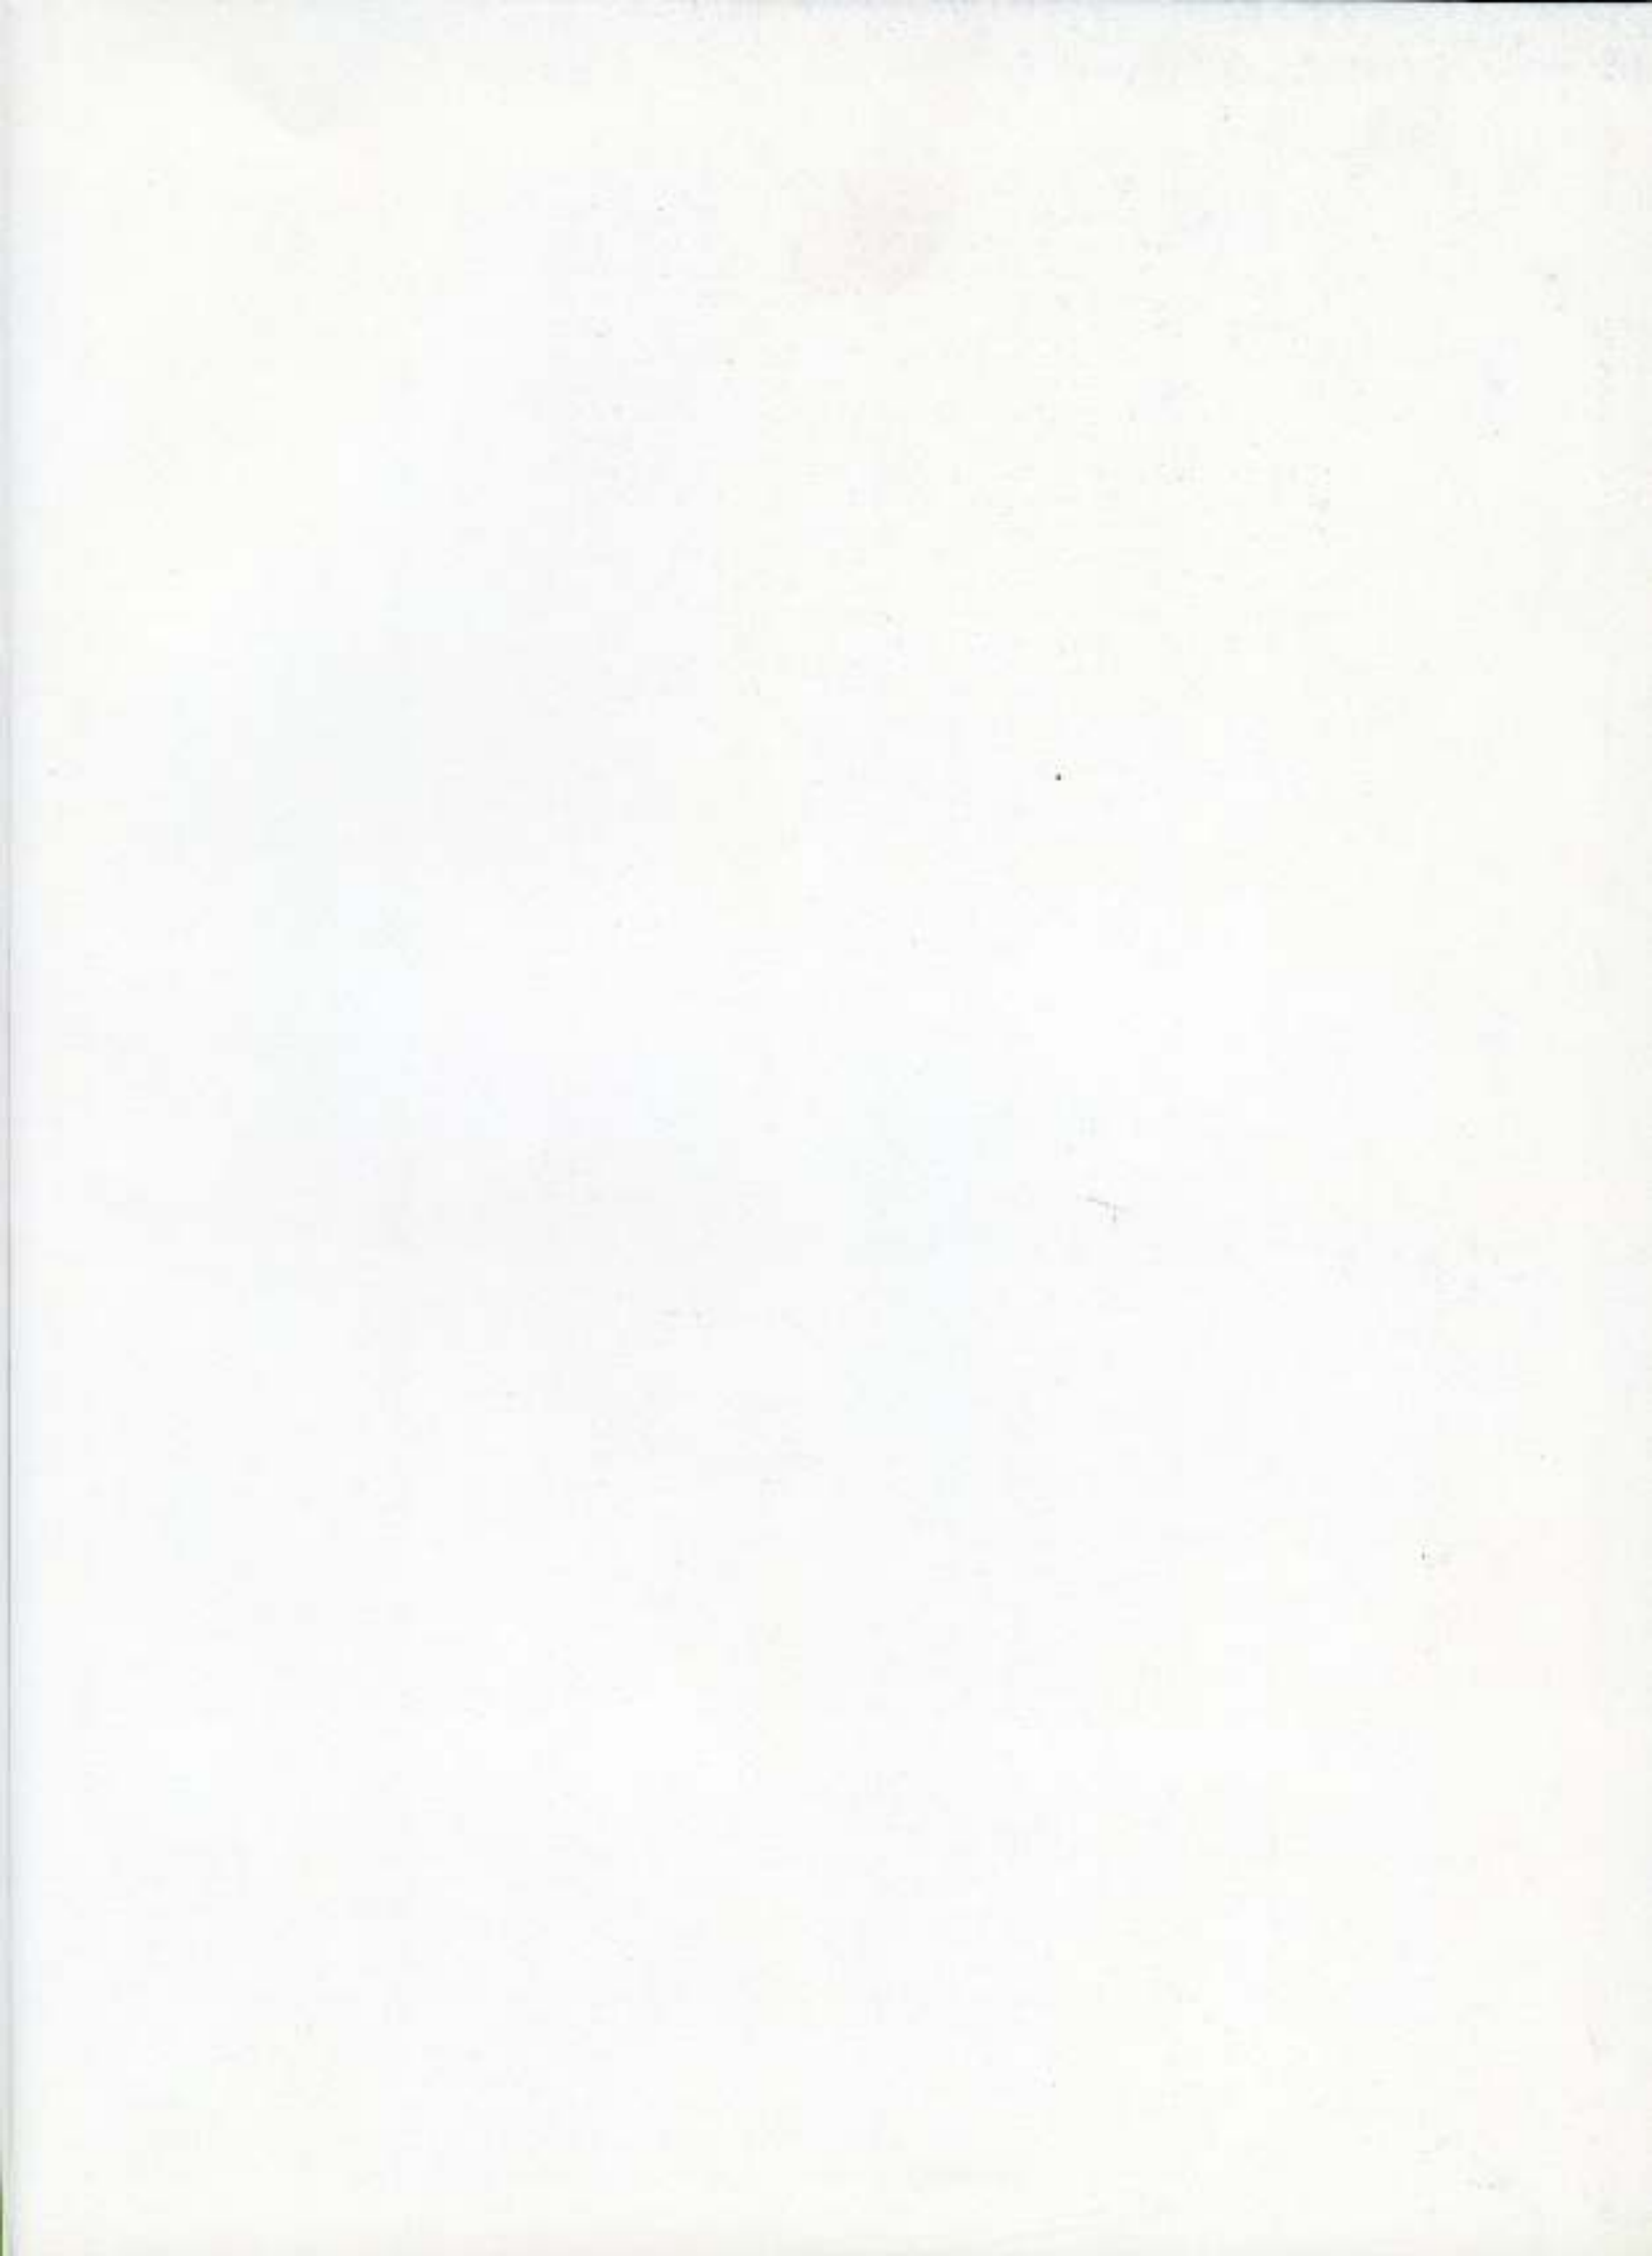

The 2010-2011 yearbook is one of the better yearbooks Golden Valley has ever had thanks to the entire yearbook staff. Despite scheduling issues, camera problems and almost our entire staff being new to the entire process, we pulled through and produced a yearbook Golden Valley can be proud of and that can be appreciated for decades to come. Thank you for all your hard work, it really paid off!  
- Simon Ingraham

This year was amazing and I would like to thank the entire yearbook staff for all their hard work in creating this excellent book. I may be an editor but I am nothing without my dedicated staff. You guys have worked so hard and with every spread your creativity grew until you produced a book you should be proud of. We all made mistakes and we all procrastinated but we worked together to create something that can last forever. I enjoyed working with all of you and I hope you continue to be in this class next year. - Jessica Kahn

Thank you for a wonderful year in which I learned as much as you did. You have put together a beautiful book you should be proud of creating. **Simon** thanks for surviving senior ads with me and for designing an awesome cover. **"Giggly" Jessica**, your writing skills are amazing. **Joanna**, I will never forget your positive attitude. **Delaney**, your and Photoshop knowledge saved many pictures. **Tiffany**, your beautiful spreads are the envy of many. **Nicole**, you have been such an asset and mentor in your group. **Justin** thanks for representing for the guys and suggesting ideas that didn't involve the color pink. **"Organized" Jessica**, thank you for having everything done well ahead of time. **Joe** thanks for being willing to do any spread that was assigned to you. **Cammy** you have a talent for design. **"Message-writing" Jessica**, your daily messages in Simon's name cracked me up. **Tweet? Jenn**, thanks for getting things done on time even when I gave you the wrong deadline. **Rachel**, I have never before met someone with such a passion for junk food! **Breezy**, your "Then and Now" spread set the standard for second semester. **Hee-ah**, I love the "This or That" spread. **Kristy** thanks for your endless hours of tagging team pictures. **Ashley**, your senior poll questions were awesome. **Eunice**, thank you for doing the most senior pages. **Matt**, thank you for helping out with uploading and editing spreads. **Dijon**, I will never forget the day you tried an energy drink. **Jazmyn**, I appreciate all the thought you put into your spreads. **Elizabeth**, your baby picture idea was genius! - Mrs. McCormick

Thank you Mike and Luci Conlon of Jostens for their support. Thank you to Mr. Zeev for being our biggest cheerleader and helping us to create an even better book. Thank you to O'Connor Photography for their numerous quality photos and help. Produced using Canon cameras, Dell Computers, using Jostens YearTech Online software.
