

Hi Jolly Pioneer Cemetery

Take a historical walking tour with the Pioneers of Quartzsite's past

The founding fathers and wives that molded the beginning of Quartzsite's history were a determined and unique group of pioneers.

There are second and third generations of these Pioneers still residing in Quartzsite and contributing to its growth and economy.

Going back to a time without basic services for miles (or days), and with the added hardship of daily living in 100 plus heat day and night, the bonds made with neighbors were strong enough to form little communities like Quartzsite. Into these communities came the Keiser's, Scott's the Kuehn's, Hagely's and Cowell's.
