VOLUME SIX

NEWHALL, CALIFORNIA, FRIDAY, APRIL 18, 1924

NUMBER 62

"For Each Other—Not Against Each Other."

County Forestry Dept. in Charge of Quarantine

The Los Angeles County Forestry Department has been placed at the head of quarantine enforcement work throughout the entire county and is going ahead with its work in a very systematic way. All the boys are doing commendable work in holding down the hoof and mouth disease.

Port Miller has been placed in charge of the Newhall district, exclusive of operations at the "dip" on Newhall bridge which are in charge of Constable Pilcher. Pete Daries is in charge of the Ridge Road division while George Taylor is taking care of the Soledad and desert divisions. These four men are in charge of 36 guards, one of which is stationed at the entrance of each important canyon in the district.

Henry Wertz and J. B. Perret are handling the distribution of supplies to quarantine stations.

Telephone Company to String New Frisco Circuit

The Pacific Telephone and Telegraph Company is planning to establish a construction camp at DeBolt's store, in Castaic, about May 1. A second camp will be established near Newhall about June 1. The company plans to construct a new circuit to San Francisco, as well as repair the present pole lead. About \$100,000 will be expended by the company within the next few months to carry out the above program.

Fined on Quarantine Violation

J. N. Olson was arrested by Deputy Sheriff Jack Wilmot, of Lebec, Monday, for violating the quarantine law. Olson was transporting a dog over the Ridge. The dog was confined to a packing box which was covered over with suitcases to avoid suspicion. When Wilmot stopped Olson, the latter denied having a dog in the car. However, the dog sneezed at a critical moment and gave his master away. Constable Pilcher and Deputy Ed Brown brot Olson into Court and Judge Miller fined him \$25.

People go up in the canyons and cut pieces of barb wire fence to use for towing cars. Farmers complain that their stock get out and wander around and at this time it is pretty serious.

Big Land Deal Consummated

H. C. Needham this week closed a deal for the Newhall Land and Farming Company which conveyed approximately 350 acres of the company's land to Frank M. Neel, Venerio Del Fante and Stanley E. Lawrence. The land lies in the Soledad Valley fronting the Mint Canyon road and adjoining Saugus on the East.

Mr. Neel is a well known resident of this section, having lived here all his life. Messrs. Del Fante and Lawrence are extensive dairy men of the Van Nuys district. The land purchased will be used as pasture land in conjunction with their dairying business.

Deputy Constable Ed Brown Grabs Store Robbers

John and Arthur Cable, said to be realty agents of Los Angeles, were arrested at Saugus by Deputy Constable Ed Brown and Officer Kennedy and locked in jail on suspicion. On investigation it was learned that the Cables had robbed the Rydell Grocery at 48th and Western Ave., and were attempting to make their get-away when they were stopped at by Brown.

The alleged thieves had abandoned their own car in favor of a Chevrolet coupe which they stole from a Mr. Mills. The coupe was loaded down with stolen groceries when stopped at Saugus. The trial of the men was set for today before Judge Miller.

Sunrise Services Called Off

With regret the Woman's Club of Owensmouth announces that the Easter sunrise services will not be held in the Greek Theater of that place, as planned, an account of the regulations for stamping out the foot and mouth disease.

The west end of the San Fernando Valley has thus far escaped the malady and it is hoped that by rigid observance of the quarantine regulations the large and valuable herds of that section may not be contaminated.

Miss Edna Shaffer, of Lancaster is spending Easter vacation with Miss Dottie Smith.

Miss Catherine Manning, who is a school teacher in San Francisco, is spending vacation with her sister, Mrs. Frank Mitchell.

There will be no dance at Honby tomorrow nite, Sat., April 14.

In Judge Miller's Court

S. R. Lane and George Boner appeared in local Court today to answer to a charge of disturbing the peace. Both were caught at Saugus when they entered the quarantine barricade drunk. It is claimed by A. H. Mitchell, of Palmdale, that Lane and Boner are the men who recently attacked him at his home and then took a shot at him with a shotgun.

E. T. Earl, Jr., son of a former prominent newspaper owner, of Los Angeles, was arrested April 14 for carrying a revolver. He was given three days to produce a permit or lose the gun.

John Jackson, colored, was arrested at Saugus, April 13 for carrying a Colts .45 without permit. He failed to appear for trial and the gun was confiscated.

J. D. Thomas was arrested for carrying a concealed weapon. His trial is set for April 28. Others arrested on a similar charge also answer to the local Court on the 28th.

The trial of Charles Brown has been set for April 25 in Dept. 12, of the Superior Court, Los Angeles.

Izick Farber, of Los Angeles, was arrested at Saugus, April 13, for violation of the Wright Act. Judge Miller fined him \$75.

Otto Fenske, foreman for the Palmdale district road overseer in Spunky canyon, was arrested under the Lewd Act. He was released under \$1000 cash bail and his trial set for today.

The Study Section of the Newhall Woman's Club will meet next Monday nite at the home of Mrs. A. G. Thibaudeau. This will be a business meeting and all members are requested to be present.

For Sale—A Gearhart auto-knitter as good as new; cheap. Mrs. H. H. Belknap, Saugus, Cal. 1t

WANTED—Address of the photographer who was taking pictures in this vicinity about 3 weeks ago. Reward for information. C. Brown, Box 173, Saugus, Calif. 3tp

Dr. Murray will be at her office on Saturday, April 19, instead of next Tuesday.

BRIEF PARAGRAPHS

Judge not.

An event of unusual interest to those who have ever lived in Missouri will take place on Sunday afternoon, April 27, at the Missouri section of the new Graceland Memorial Park, just northeast of the town of Norwalk and but a few miles from Los Angeles. On that day there will be dedicated a beautiful marble tablet on the section of the park which was recently acquired by the Missouri State Society of Los Angeles county. The exercises will commence at 2 o'clock and among the speakers will be several well known Missourians.

More than one hundred of the representative citrus growers of California, secretaries of civic organizations and newspaper men will be the guests of the Board of Directors of the Fourth Annual California Valencia Orange Show, at a "get together" dinner to be held on Tuesday nite, April 15 at Anaheim Elks Club.

The dinner is for the purpose of laying before the representatives of the various state organizations the plans of the Fourth Annual California Valencia Orange Show at Anaheim, May 16 to 25 inclusive.

Subscribe for the SIGNAL.

Community Presbyterian Church Notes

A special Easter program will be given Sunday morning at 11:00 o'clock by the members of the Sunday School and church choir.

Let us fill the little church on the glad Easter time and sing with the Psalmist, "I was glad when they said unto me, let us go up unto the House of the Lord." And again, rejoice and sing "Bless the Lord O My Soul and all that is within me bless his Holy Name.

The subject of the Sunday School lesson is "The Risen Christ." The Golden Text is, "But now hath Christ been raised from the dead, the first fruits of them that are asleep."

The subject of the C. E. service is, "Easter the time of joy." Mrs. Cook is the leader. There will be an old time song service.

Come and help us in these services.

**United States Dry Chief
Playing With Fire**

On April 14, United States dry chief Haynes, of Washington, D. C., issued the following regulation, as a revision of the dry law, to become effective May 10, 1924:

"The advertisement, sale, etc., of stills, parts of stills, worms or coils, malt, malt extract or syrups, hops, isinglass, fruit juices, such as grape, dried fruits and fermentable materials, as well as recipes or formulae for the manufacture of liquor for use in the home or elsewhere for beverage purposes, are prohibited."

"We have for some months been laboring under the impression that Commissioner Haynes was a highly intelligent individual.

On analyzing his wild, drastic and sweeping ruling, especially as it applies to the sale of fruit juices and dried fruits, we are obliged to change our opinion at once.

The regulation is plainly a blow at "home brewers," but it doesn't stipulate any exceptions. It is the king-pin "official" joke of 1924.

If Haynes imagines that he can force any such rigid measure down the throats of the American people and get away with it, he certainly needs to have the interior of his head examined.

There is such a thing as, carrying prohibitory measures too far and this fact will undoubtedly become evident to Mr. Haynes when he attempts to enforce his new regulation.

We contend that the people of this country still have a right to SOME personal liberty whether certain of our dazzling politicians favor it or not.

Putting a ban on, the sale of grape juice would rub the fur the wrong way on the backs of the Welch Grape Juice Company and the Armour Packing Company--both multi-millionaire concerns. It would make a number of smaller concerns equally uncomfortable. We are not so optimistic as to believe that "big business"

will bow humbly to the diction of Commissioner Haynes. It is just possible that the drug-stores and soft drink establishments will have something to tell the dry chief also.

Trying to put a ban on the sale of dried fruits is without doubt one of the dippiest schemes we have heard from dry headquarters for many a day. Such egotism and conceit is truly pathetic.

It is safe to say that the people of the State of California especially will tell Mr. Haynes where to get off when he starts to enforce the ban on the sale of dried fruits.

As a matter of fact, the dried fruit industry is one of the chief industries of this state. Raisins, dried figs, dried peaches and dried apricots are typical California products and thru their propagation, preparation and distribution thousands of Californians enjoy their livelihood.

When he starts to enforce his recent radical "dry brain"-storm, we predict that Mr. Haynes will "discover" California with quite as much distress as Kaiser Bill experienced when he discovered America in 1918.

There is an old adage that applies very fittingly to the scheme which Commissioner Haynes proposes to put over on the American public. It goes something like this: "You can lead a horse to water but you cannot make him drink."

And that's that!

Edison Company's Florence Lake Tunnel

So successful has been the application of new inventions and modern methods, that the great Florence Lake tunnel which the Southern California Edison Company is driving under the Kaiser range in the high Sierras mountains of northeastern Fresno County, will be completed one year and four months ahead of scheduled time, according to an announcement received this morning by District Manager D. H. Rowan from R. H. Ballard, vice president and general manager.

This tunnel which is nearly 14 miles in length and which, when completed, will be the longest tunnel of its bore in the world, will increase the water supply of the Edison Company's chain of power houses on its Big Creek-San Joaquin River project from 112,000 acre feet to 366,000 acre feet per year, or more than 200 per cent. Explaining the importance of this development District Manager Rowan pointed out that it is now quite certain that the average progress on the tunnel for the year will be in excess of 15 feet per day per heading on each of the six headings on which a force of about two thousand men are now working. This force, however, has at times reached a total of 5000 men, the maximum daily payroll being \$23,000. This assures the completion of the tunnel by about March, 1925, in ample time to catch next spring's run-off from the enormous water sheds which lie between the Kaiser range and the Minaret range thus diverting the upper waters of the San Joaquin River into the Huntington Lake reservoir.

During the past winter such remarkable achievements have been made in speed records as to attract the attention of the engineering fraternity of the world. The Elizabeth Lake tunnel on the Los Angeles aqueduct, which is a hard rock tunnel almost identical with the rock excavations for the Florence Lake tunnel held the world record for its time, which was a little over eleven heading feet per day. During the past year the maximum weekly progress attained on the Florence Lake tunnel at the outlet portal was 140 feet at the average of 20 feet per day. The maximum weekly progress for all of the six headings was made during the month of November of last year, and was 16.7 heading feet per day. The maximum monthly progress for a single heading was made at the outlet portal at Huntington Lake. At this portal 570 feet of tunnel was driven in March of this year at an average rate of 18.5 heading feet per day.

The Florence Lake tunnel when completed next spring will increase the Southern California Edison Company's supply of water power generated electricity more than one billion kilowatt hours annually. The application of modern methods will save

more than one million dollars in the cost of construction.

Some of these are extremely unique. By installing "dining car service" to carry meals to the men working in the tunnel much time is saved. A train of electric trolley car drives into the miles of excavated tunnel at meal time bearing hot food to the men.

Another invention known as the "air curtain" by which jets of air trap the gas fumes, permits the men to go back to their work after blasting much more quickly than was formerly possible. This saves about one hour's work on each of the six headings per day.

There have also been made some wonderful improvements in "mucking" (carrying out the excavated rock); and by the introduction of high speed drills and steel the length of which have been increased to 20 feet.

When the Florence Lake tunnel was started, the most conser-

vative estimates placed the time of its completion for the summer of 1926. The cost was then estimated at \$18,000,000, but skill and efficiency will reduce this at least \$1,000,000. Engineers fixed a schedule of 12 feet per day per heading as the highest average

progress which could possibly be attained. District Manager D. H. Rowan says that the skill, experience and initiative of the company's construction and engineering departments has speeded up the work by about one year and four months.

ATTENTION

Your dog or cat MUST be tied or penned up on your premises. This is a very necessary move in the control of the Foot and Mouth disease and must be obeyed. Stray dogs will be shot. Will you lose your Pet?

Being a Few Pointed Paragraphs Clipped
at Random from a Notebook
on Humanity

On Gettin' Even

By FRANK EDWARDS HINKLE

A fellow-man had hurt me sore,
And for a week or maybe more
I sat around and thot up ways
To even up the blooming score.

And the more I sat around and thot
Of how he'd spoke those words of his
To prick my heart and wound my soul,
The more I thot I'd like to pay
Him ten times over—just heap it on
And rub it in his pesky hide—
And make him feel of all men most
Darned miserable; but nothing seemed
To fill the bill; I couldn't seem
To get a plan quite low-down mean
Enuf to pay this vengeful debt
I owed to him—until last nite when
I lay in bed about eleven o'clock,
A-thinking hard, it came to me
What once I'd heard some fellow say
About getting back at folks who treat
You spitefully and shamelessly;
And so today I had my turn
At him, you bet, and paid him off
Most handsomely—I'll say I did,
Just as will you when you see—
You what I did to him, 'by Jinks:
I watched my chance and did the deed
Behind his back; I slipped around
Indian-like and did that chap
A kindly turn all unbeknown
To him or his.

And if he lives a thousand years
He'll never know and never hear
Who did that turn, and I don't care—
Because recollect that I'm ahead
Ten thousand miles of him by Heck!

A man dropped in at a nearby ranch
and asked for a job, incidentally saying
that his last job was so depressing that
he deemed it advisable to have a change
of occupation.

When he was asked where he had
previously worked, he replied:

"I worked on the graveyard shift,
in the Coffin mine, Corpse Canyon,
in the Funeral Range Mountains of
Death Valley."

The total number of postage stamps
issued by the United States from July
1 to December 31, 1923, was 7,660,578,
830 with a value of close on 200 million
dollars. Each year 500 acres of spruce
trees are turned into stamps, and 3,000
pounds of paper, 2,200 pounds of ink,
and 3,200 pounds of glue are needed for
the daily output of stamps. The year's
supply of U. S. stamps, if placed end
to end, would reach nearly to the
moon.

Some are deaf and dumb, some are
beautiful and dumb, and some are just
plain dumb.

"Does he belong to the 400?"
"Yes, he's one of the ciphers."

Truth is tough. It will not break,
like a bubble, at a touch; nay, you may
kick it about all day, like a football,
and it will be round and full at even-
ing.—Oliver Wendall Holmes.

FUNERAL ANNOUNCEMENTS

"I don't think it's loaded. I'll just
look down the barrel and see."

"Look at this wire hanging down in-
to the street. I'll throw it over to one
side."

"I wonder if this rope will hold my
weight."

"How much electricity do you think
these wires carry? I'll just touch one
and find out."

"Listen! That's the interurban
whistle. Step on the foot throttle. I'm
sure we can beat it across."

"It's no fun swimming here; I'm go-
ing out beyond the life lines."

"I've never driven a car in traffic
before; but they say it's very simple."

"I think these must be the headache
tablets, altho there isn't any label on
the box."

"Ste that Forest Ranger standing
over there? I'm going over and shoot
his horse, just for fun."

"STRONGHEART" COMING TO CODY'S

"STRONGHEART," the
wonderful police dog of
the screen, will be seen
at Cody's, Apr. 20-21-22
in his latest and greatest picture, "The
Love Master."

"Strongheart" has several competi-
tors on the silversheet but no equals.
He has played the leading role in pic-
tures of the frozen North for several
years. His admirers are figured in
millions and increase with every picture
in which he appears. Police dogs are
all extremely intelligent. "Strong-
heart" at times displays almost human
intelligence. Those who know him real
well, vouch for the fact that he can
actually smile, sigh and weep.

He has a faculty for outguessing his
director and has an uncanny intuition.
He always seems to know just what to
do next.

Altho "Strongheart" is not really a
one-man dog, he picks his friends with
care. He and Lillian Rich, with whom
he appears in his latest picture, are the
best of friends.

If once you see this wonderful dog
you will never forget him. He is the
screen's real master of thrills.

Mint Canyon Juleps

Work at the Gypsum Mine is "resting easy" this week. All but the chef and watchman have gone to Los Angeles.

Miss Corrine Robertson, teacher at Sterling has gone to Death Valley for the Easter vacation and is the guest of Mr. and Mrs. Norman Ross. The Ross family, formerly of Sterling moved to Ryan the first of the year, where Mr. Ross is with the P C Borax Co.

Mr. and Mrs. Paul Johnson and sister Miss Mary Johnson were weekend visitors at the former's home in upper mint.

Mrs. Wm. Heim is in Los Angeles this week the guest of her friend Miss Holbrook.

Several weekend visitors in Mint attended the Newhall Woman's Club entertainment and dance last Saturday nite.

Travel is very lite in Mint during the strict and rigid enforcement of the quarantine law by

officials stationed at Saugus. Residents thruout the canyons are demanding their strict vigilance in an effort to stop the plague from entering these channels. For once in these narrow outlets it would be only a short time until the disease would be spread thru the beautiful and fertile Antelope Valley. Here thousands of ares of fruit trees are blooming with a possibility that should the scourge continue the fruit could not be marketed. Don't forget that the straying of your dog, cat or chickens might be the means of spreading the plague. It is every ones duty to keep them off the highways.

We are advised that a head-on collision occurred in Wilmington in which Michael Maloy of Soledad and Gail Brown of Mint took the leading parts. Mr. Maloy is in the hospital at Seaside, but Mr. Brown escaped more fortunately. Mr. Maloy is well known in Mint and Soledad and friends hope for his speedy recovery.

No Meat Shortage

The impression has been gained by many people that there is a shortage of meat in Los Angeles. This is not the case. There is an ample supply of good meat that has been inspected by Federal and State authorities that is in the cold storage plant of Los Angeles adequate to take care of present needs. If this supply becomes exhausted, other supplies ample for the needs of Los Angeles will be brot in by packers from other territory. There is no justification for people refraining from the use of meat and dairy products, as strict inspection is being given to same.

It is announced by the State Department of Agriculture that guards have been placed on all pasteurizing plants in Los Angeles county. Strict supervision and daily inspection is being given to all raw milk products and no dairy is allowed to operate without a permit from the State Department of Agriculture and with daily inspection.

An Easter entertainment will be given Sunday evening, April 20, at 7:30 in the Sulphur Springs school house. Everybody welcome.

NOTICE OF TRUSTEE'S SALE

Sale No. 3193

WHEREAS, by a Deed of Trust, dated December 1, 1921, recorded December 8, 1921, in Book 659, Page 342 of Official Records of Los Angeles County, California, to which record reference is hereby made, Charles R. Conrad, a single man, did grant and convey the property therein and hereinafter described to the TITLE GUARANTEE AND TRUST COMPANY, as trustee, to secure, among other things, the payment of one certain promissory note, in favor of the First National Bank of Glendale, a corporation, and other sums of money advanced and interest thereon.

WHEREAS, the Security Trust and Savings Bank, a corporation, is the successor of said First National Bank of Glendale, and said note has been duly assigned and endorsed to it by said First National Bank of Glendale, and

WHEREAS, there has been a default in the payment of the principal of said note, according to the terms thereof, and of all interest due and payable thereon subsequent to March 5, 1922, there being the total sum of \$1504.28 now due and unpaid, and

WHEREAS, in accordance with the provisions of Section 2924 of the Civil Code of the State of California, said Security Trust and Savings Bank, the owner and holder of said note and trust deed, on January 7, 1924, caused to be recorded in the office of the County Recorder of said Los Angeles County a notice of such default in the payment of principal and interest, and of its election to cause the property described in said trust deed to be sold, in accordance with the provisions thereof, to satisfy said obligation, which notice of default and election to sell was duly recorded in Book 2967, Page 140 of Official Records of said Los Angeles County, and

WHEREAS, said Trust Deed provides that, if there is a default in the payment of any of the sums secured thereby, upon application of the holder of said note, the trustee shall give notice and sell so much of the property as shall be necessary to satisfy the indebtedness secured thereby.

WHEREAS, said Security Trust and Savings Bank, by reason of the default in payments as stated, has requested the TITLE GUARANTEE AND TRUST COMPANY to give notice and to sell said property, or so much thereof as shall be necessary to sell, to pay all the indebtedness secured and expenses incurred necessary to the execution of said trust.

NOW THEREFORE, notice is hereby given that the TITLE GUARANTEE AND TRUST COMPANY by virtue of the authority vested in it as Trustee, will sell at public auction, to the highest bidder, for cash in gold coin, on the 17th day of May, 1924, at the hour of 11 o'clock a. m., of said day, at the west front

entrance of the court house in the City of and County of Los Angeles, State of California, all the interest conveyed to it by said Trust Deed, in and to all the following described property, to-wit:

Lots Twenty-three (23), Twenty-four (24) and Twenty-five (25) of Buchert Tract, in the City of Newhall, County of Los Angeles, State of California, as per map recorded in Book 16, Page 120 of Maps, in the office of the County Recorder of said County; or so much thereof as shall be necessary to pay the total amount of the principal, interest, advances, charges, and costs, amounting to the sum of Eighteen Hundred and 00/100 Dollars (\$1800.00); due and unpaid.

In witness whereof, the TITLE GUARANTEE AND TRUST COMPANY has duly authorized this notice, by the signature of its vice-president, attested by its secretary, who has affixed the corporate seal, at Los Angeles, California, this 8th day of April, 1924.

(Corporate Seal)
TITLE GUARANTEE AND TRUST COMPANY—By E. W. Sargent, Vice-President; Attest, A. R. Killgore, Secretary.

The Harp Bible Course.

The Harp Bible Association is now making to Bible readers an offer of a very special study course "The Harp Bible Course," for only \$2.95 and are giving free of charge, a premium consisting of several beautifully bound Bible study books. The premium books alone, if purchased in a store at regular book rates, would cost you \$10.00.

An excellent Christmas opportunity.

DEPARTMENT OF THE INTERIOR
U. S. LAND OFFICE, at Los Angeles, California, March 25, 1924.

NOTICE is hereby given that Peter Bartsch, of 1166 W. 105th St., Los Angeles, California, who, on March 10th, 1919, made Additional Homestead entry, No. 032048, for E4NE1NE1, Section 17, Township 4 N., Range 14 W., S. B. Meridian, has filed notice of intention to make final three year Proof, to establish claim to the land above described, before the Register and Receiver, U. S. Land Office, at Los Angeles, California, on the 14th day of May, 1924, at 9:00. A. M.

This notice is made for the purpose of allowing all persons claiming the land adversely or desiring to show it to be mineral in character an opportunity to file objection, to the application with the local land officers for the land district in which the land is situated, and to establish their interest therein, of the mineral character thereof.

This Homestead application is made subject to whatever mineral or other reservation is properly applicable thereto.

Los Angeles District Federation of C. F. W. C.

The Los Angeles District Convention held last week at Glendale was the most successful the district has ever experienced. Five counties, Inyo, San Luis Obispo, Santa Barbara, Ventura and Los Angeles comprise the Los Angeles district and its 187 federated clubs were all represented with at least a two-minute report of the years work.

The Tuesday Afternoon Club of Glendale being the hostess club, spared no effort in the hospitality accorded its 400 guests.

Questions of vital interest both nation wide and local were delved into deeply by the assembly over which Mrs. Chas. H. Toll, District President, presided.

Several resolutions of great import were referred to the District Board for consideration.

The theme of the Convention was "Education for Peace."

Mrs. Urquhart was greeted by a rising audience. Mrs. Josiah Evans Cowles was lauded in her views.

The mayor of Glendale addressed the assembly Tuesday evening. Mrs. Campbell, president of the hostess club in a charming manner gave the address of welcome.

Dr. David Starr Jordan, recently from a conference in Honolulu gave a lengthy talk on "Peace thru Education."

Mrs. Cable stated that the entire expense of the Biennial will be covered with \$25,000.

Wednesday noon a Press luncheon was given to 100 members of the press, at the Egyptian Cafe. Mrs. Irish presiding said that if the advertising given by the papers were paid for it would amount to \$9,900.00.

Mrs. Emelie Timerhoff the circulating manager of the Federation News gave a talk.

Mrs. Mckelvey gave a most instructive lecture on "Robert's Rules of Order."

Table decorations were small automobiles filled with pansy bouquets for thots. There were other features such as pen and holders containing pennants reading "Publicity."

There were continued reports from the various clubs Wednesday afternoon. "America the Beautiful," was voted the official song of California

Mave Copeland Lineman lectured on "Intelligent Citizenship." After the days session delegates were given a joy ride by the hostess club members, to places of interest about Glendale, including the Oakmont Country Club where coffee and cakes were served.

Thursday morning Mrs. Caroline Osgood who is ninety years

young, was presented.

Various resolutions were again before the assembly. Luncheon was served at the Congregational Church where Mrs. Anne Godfrey lectured on "The Responsibility of Club Women" and suggested that they help their foreign sisters to learn the English language.

Thursday afternoon was taken up with finishing business and the presentation of flowers. In the evening a banquet was given to over 400 guests. Seated at the speakers table were Mrs. Toll, Mrs. Urquhart, Dr. Franklin Thomas Baker of New York and Columbia University, the latter speaking on "Education in the Schools." Other notable guests who graced this table were officers present and past in the District. Many toasts were made and responses came with witticisms seldom heard.

Rev. Evans to Go to Grand Rapids

At the spring meeting of the Presbytery of Los Angeles, held at Monrovia last week, Rev. W. H. Evans was elected as one of the twelve commissioners to the General Assembly to be held in Grand Rapids, Michigan from May 22 to 30. Rev. Evans expects to leave for the East May 12th and visit in Nebraska, Iowa and Illinois on the trip.

Mr. and Mrs. T. W. Smith and three sons are spending the week with Mr. Smith's sister, Mrs. C. W. Lewis.

Woman's Club Notes

The entertainment given Saturday nite by the Social and Program Section of the Newhall Woman's Club, was well received. Miss Joyce Langston entertained with songs and stories, after which dancing was enjoyed to the music of Ernie Ostrup's orchestra. "Spot" dances were a feature of the evening, many receiving prizes by standing on the lucky number at the close of a spot dance. A prize waltz was given in which Mrs. Bernice Miller was the favored one. But thru courtesy bestowed the prize upon the next popular lady, Miss Gladys Wertz, Chester Johnson being her partner. The refreshments were donated by the members and there was an abundance.

Those in charge wish to thank all who so generously responded with goodies and money. It was a benefit for the Club and every little bit helps to swell the fund for the club house. Every one's help and patronage is always appreciated.

Help prevent mountain fires

The many friends of the J. F. Shaffer family are pleased to know that they have returned to Newhall. They went to Pennsylvania a year ago to remain, but the attractions of California were not forgotten and they have returned to stay arriving this week after a 13-day cross country trip in their auto.

The Misogynist

I am a woman hater; they bore me. They slumber and giggle in a way that makes me tired.

Their painted faces, penciled eyebrows, ruby lips and all their little tricks do not thrill me.

Their talk is not interesting. I would not care to sit out a dance with one of them.

I like the company of men so much better.

I am a woman.—Town Topics.

A Bit Foggy

The old gentleman was lost in a London fog, so thick that he could scarcely see his hand before his face. He became seriously alarmed when he found himself in a slippy alley. Then he heard footsteps approaching.

"Where am I going?" he asked anxiously.

A voice replied weirdly from the darkness: "Into the river. I've just come out."—Everybody's Magazine.

Life, Money and Women

Half the trouble in life comes from too much love.

Two women may agree, but miracles are never sure.

Matrimony is one way to end uncertainty.

Lend me a dollar and I will wish you had remained my friend.—Richmond Times-Dispatch.

Machine Almost Human

A clever device, called a serving machine, has been patented for winding twine and other material on marine-wound cables. Actuated by a 1-6-horse power motor, this little machine can be started at the end of a long cable and will automatically travel to the other end, winding the protecting material on the cable as it goes. It is said to do the work faster and better than six expert riggers could, and as the first cost and maintenance are low, it is thought that it will increase the use of marine wound cable.

How He Knew

An old Scotch pilot professed to be able to tell the home port of any incoming vessel within a reasonable distance by what seamen still call "the cut of her jib," meaning thereby her general appearance. To test his powers an onlooker called his attention to one in the far distance. The pilot gazed long and earnestly, and eventually pronounced her an Aberdeen boat. He proved to be right, and a chorus of surprised voices inquired how he knew. "No seagulls following her!" he said.

A Real Loss

"I see a girl giving the name of Queenie Regina has left Hollywood and gone back to Rutabaga Junction."

"Queenie Regina, hey?" "Probably a name she manufactured for herself."

"Probably."

"Just another moth, I suppose?"

"Yep; couldn't break in."

"What did you say her name was?"

"Queenie Regina."

"It's a pity to have a name like that lost to the movies."

Atmospheric Conditions Warn of Foul Weather

Sometimes when the air is extraordinarily clear and distant objects are visible with unusual sharpness and sounds come from afar with startling distinctness. It is a warning of foul weather. Then it is

When the peacock loudly bawls Soon we'll have both rain and squalls.

Under these atmospheric conditions the songs and cries of birds sound loud to the ear. The barking of dogs, the lowing of cattle, the whistles of locomotives, the honking of motor horns, come from far away, whence sounds are not commonly heard. To the eye the difference of visibility from the ordinary may be likened to the contrast between a view through a pane of ordinary window glass and that through one of plate glass. The reason is that during the occurrence of a warm southerly wind at a moderate height, a condition usually preceding a storm, a stratus cloud is likely to cut off the sun's heating from the ground and so prevent irregularities in heating and also to permit the surface air to remain cool. The result is a homogeneous lower atmosphere through which light and sound waves travel without local disturbance. The sound waves are further intensified at a distance from their source by a phenomenon, very common on a quiet morning after a clear night when the air close to the surface is cooler than that a few hundred feet aloft. There is a concentration of the waves. In the warmer air at a moderate height the sound waves travel faster than in the lower colder air, so those that ascend are bent back to earth and combine with those that travel the normal straight course, thus intensifying the sound in the listener's ears.

Star Was Once Called Center of Universe

Ateyone, the brightest star of the Pleiades, equals in brightness the star Zeta. It was at one time fancifully pictured as the center of the universe by the astronomer Madler, but this was merely a speculation for which there is absolutely no foundation. The Pleiades form, in fact, a moving cluster of stars of 200 or more members, and its principal stars are associated with a nebula of vast size. There is no reason to believe that our sun with his family of planets is moving around this or any other center in the universe. It has been estimated that the distance of the Pleiades from the solar system is over 300 light years, or, in other words, that the light from this cluster takes over 300 years to travel to the earth. We see these stars today as they were before the Pilgrim fathers landed in America.—Nature Magazine.

Too Late

Old Gentleman (engaging a new chauffeur)—I suppose I can write to your last employer for your character?

Chauffeur—I'm sorry to say, sir, each of the last two gentlemen I have been with died in my service.—Punch (London).

On the Telephone

Subscriber (to Information Operator)—Please give me Mr. Dill's telephone number.

Operator—Is the initial "B" as in Bill?

Subscriber—No. It's Dill as in Dickie.—The Mouthpiece.

On Bargain Day

Customer—Where can I find the tacking-sale counter?

Floorwalker (halfback on store sign)—Third scrimmage on your left, please.—Boston Transcript.
